Pre- and post data indicates that school climate is a factor in academic achievement. Next, we hope to extend some elements of the process measurement

Pre-K Committee - Need: Community involvement can greatly enhance the impact of Pre-Kindergarten classes for our youngest students. Solution: The AN Pre-K committee of MNPS staff and community stakeholders serves as the state-mandated committee overseeing community involvement for all Pre-K classes in Nashville. The committee meets monthly to review such issues as Pre-K communication, recruitment, attendance, advocacy and community involvement. Current Activities: The Pre-K Committee oversees the Essential Literature project, which provides training and materials for Pre-K teachers to help them deliver consistent, literature-rich experiences for students based on state and Metro Pre-K standards. This service extends to all Pre-K students in the MNPS program and other programs throughout the city. Elementary School Committee - Need: From the first day of school, young students can become better citizens through Character Education. Solution: AN provides coordination and oversight of the community partnerships that provide Character Education in all 75 MNPS elementary schools, impacting 30,000 students. Current Activities: The committee maps and analyzes community involvement. In addition, the committee introduces community organizations to guidance counselors and interacts with community organizations to inform them of the need for character education. Middle School Committee - Need: Bullying and violence can be eliminated when students create and maintain a Culture of Kindness. Solution: The AN Middle School Committee's 'Culture of Kindness' collaboration is the core project of a \$4.2 million federal grant from the CDC. The project funds a pilot to change the climate at 13 schools. Current Activities: The committee oversees the recruitment, problem-solving and strategic community involvement for four schools with Alignment Enhanced Services (AES) to provide safe havens for students after school hours. Pre- and post data indicates that school climate is a factor in academic achievement. Next, we hope to extend some elements of the process measurement to capture activities of organizations working within the schools, particularly those that have been funded by Healthways Foundation and United Way. High School Committee(s) - Need: Nashville can reap decades of progress by helping students become the next generation of leaders. Solution: The Alignment Nashville High School Committee helped create the Developing Community Leaders classes now offered in 9 MNPS high schools to equip "non-traditional" leaders with skills and opportunities to change the culture of their school and community. Students can receive dual-enrollment college credit for participation. Current Activities: The Committee recruits community organizations to participate in DCL opportunities, provides training for DCL teachers, co-hosts DCL teacher support meetings, and advocates for the program within the school system and

Smaller Learning Communities Committee - Need: Students will realize the importance of graduation if they can connect school with a rewarding career. Solution: AN helped MNPS secure a five year, \$6.65 million federal grant to implement Smaller Learning Communities within each comprehensive high school. Current Activities: The Committee facilitates and coordinates business engagement to support Smaller Learning Communities and Career Academies by collaborating with PENCIL Foundation and the Nashville Area Chamber of Commerce to create Career Partnership Councils and a Speakers Bureau. Efforts are also underway for long-range community involvement planning. Alternative High School Initiative Committee - Need: Students need a variety of options to earn a high school diploma. Solution: The AHSI Committee is working through a technical assistance grant from the National League of Cities, received by the Offices of the Mayor and Vice-Mayor, to assist MNPS in the development and implementation of wrap-around services for a variety of AHSI models. The Big Picture High School Committee is now part of the AHSI Committee. Current Activities: The AHSI Committee is planning wrap-around services and communication in support of the alternative models and is providing input and advocacy for the implementation of the models. Next Steps: In spring 2009, the committee will host additional community meetings to engage the community around additional AHSI models. 16-24 Year-olds Out-of-School/Out-of-Work Committee - Need: Students without a diploma or career face a future of financial and emotional peril. Solution: The Alignment Nashville 16-24 Year-olds Committee is working to connect disengaged students with community resources that will help them earn a GED or diploma and/or begin a satisfying career. Current Activities: In 2009, the committee coordinated the placement of brochures in English and Spanish at strategic community locations for wide distribution of GED and adult high school information. Currently, fifteen community organizations are participating in this effort by using the brochures in meaningful conversations with young people about these opportunities. In addition, the committee is coordinating much-needed professional development and networking opportunities for GED providers. The committee held several events in early 2009 to encourage continued dialogue and collaboration within this community of providers. Parent University Committee: Need: Parents must be well-informed partners with MNPS to help all students do well in school. Solution: Parents can be empowered to help their children when they have accurate school-related information and develop the necessary skills to be their child's best "teacher." Current Activities: With funding from the Healthways Foundation, the Parent University Committee developed a model for differentiated outreach to specific communities within the city.
