Independent Auditor's Report

The Board of Trustees Meharry Medical College Nashville, Tennessee

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of Meharry Medical College and Subsidiary (the "College"), which comprise the consolidated statements of financial position as of June 30, 2017 and 2016, and the related consolidated statements of activities and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Meharry Medical College and Subsidiary as of June 30, 2017 and 2016, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Nashville, Tennessee October 28, 2017

See accompanying notes to consolidated financial statements.

A. <u>ORGANIZATION AND PURPOSE</u>

Meharry Medical College (the "College") is a fully accredited, private college committed to training health care professionals and leaders in many medical and health related fields. The College exists to provide an excellent education in the health sciences, while maintaining a center of excellence for the practice and delivery of health care, and the conduct of both basic and clinical research.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation and Accounting

The consolidated financial statements of the College have been prepared on the accrual basis of accounting and in accordance with the accounting principles generally accepted in the United States of America.

The consolidated financial statements include the operations of the College and its wholly owned subsidiary, Meharry Housing Corporation. All significant intercompany activity has been eliminated in consolidation.

To ensure observance of limitations and restrictions placed on the use of resources available, the College maintains its accounts in accordance with the principles and practices of fund accounting. Fund accounting is the procedure by which resources for various purposes are classified for accounting purposes into funds that are maintained in accordance with activities or objectives of the College.

For external financial reporting purposes, Accounting Standard Codification ("ASC") 958 *Not-for-Profit Entities*, requires that resources be classified into three net asset categories according to donor-imposed restrictions. Net assets of the college and changes therein are classified as follows:

<u>Unrestricted</u> - Unrestricted net assets (which are free of donor-imposed restrictions) generally result from tuition and fees, revenues derived from providing educational and health services, receiving unrestricted government and private gifts, grants and contracts, less expenses incurred in providing educational and health services, raising contributions and performing administrative functions.

<u>Temporarily Restricted</u> - Temporarily restricted net assets generally result from contributions, earnings from endowed funds and other inflows of assets whose use by the organization is limited by donor-imposed stipulations that either expire by passage of time or can be fulfilled and removed by actions of the College pursuant to those stipulations.

B. <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> - Continued

<u>Permanently Restricted</u> - Permanently restricted net assets generally represent the contributions and other inflows of assets whose use by the College is limited by donor-imposed stipulations that neither expire by the passage of time nor can be fulfilled or otherwise removed by the College.

Use of Estimates in the Preparation of Financial Statements

Judgment and estimation are exercised by management in certain areas of the preparation of the consolidated financial statements. The more significant areas include the recovery period for plant facilities, the allocation of certain operating and maintenance expenses to functional categories, the collection of contributions receivable, and the valuation of receivables including the allowances for contractual adjustments and doubtful patient accounts receivable. Management believes that such estimates have been based on reasonable assumptions and that such estimates are adequate, however, actual results could differ from those estimates.

Contributions

The College reports gifts of cash and other assets as temporarily restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the consolidated statements of activities as net assets released from restrictions. However, donor-restricted contributions whose restrictions are met in the same reporting period as received are reported in the consolidated statements of activities as unrestricted contributions. Expenses are reported as decreases in unrestricted net assets. Temporary restrictions on gifts to acquire long-lived assets are considered met in the period in which the assets are acquired or placed in service.

Contributions, including unconditional promises to give, are recognized as revenue in the period received. Conditional promises to give are not recognized until the conditions on which they depend are substantially met. Contributions of assets other than cash are recorded at their estimated fair value at the date of the gift. Contributions to be received after one year are discounted at a rate commensurate with the risk involved. Amortization of the discount is recorded as additional contribution revenue and used in accordance with donor-composed restrictions, if any, on the contributions. An allowance is made for uncollectible contributions based upon management's judgment and analysis of the creditworthiness of the donors, past collection experience and other relevant factors.

B. <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> - Continued

Cash and Cash Equivalents

Cash and cash equivalents include cash and highly liquid investments with original maturities of three months or less. Certain cash equivalents are also included in investments as they are awaiting investment.

Inventories

Inventories consisting of supplies are stated at the lower of cost (first-in, first-out) or market (net realizable value).

Accounts Receivable

The College records accounts receivable at their estimated net realizable value. An allowance for doubtful accounts is recorded based upon management's estimate of uncollectible accounts determined by analysis of specific balances and a general reserve based upon aging of outstanding balances. Past due balances are charged against the allowance when they are determined to be uncollectible.

Investments

Investments in equity securities with readily determinable fair value and all investments in debt securities are reported at fair value with gains and losses included in the consolidated statements of activities. Works of art, historical treasures, and similar assets held as part of collections are reported at the fair or appraisal value at the date of acquisition or contribution, respectively.

Investment in hospital facility is based upon the estimated fair value of the facility, which equates to the discounted payments to be received from the 30-year lease of the facility. The investment is being depreciated on a straight-line basis over the estimated useful life of the facility and equipment which range from ten to forty years.

Life Income and Gift Annuities

The College's split interest agreements with donors consist primarily of irrevocable charitable remainder trusts for which the College serves as trustee. Assets held in these trusts are included in investments. Contribution revenues are recognized at the dates the trusts are established after recording liabilities for the present value of the estimated future payments to be made to the donors and/or other beneficiaries. The liabilities are adjusted annually for changes in the value of the assets, accretion of the discount and other changes in the estimate of future benefits.

B. <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> - Continued

Plant Facilities

Plant facilities are stated at cost or estimated fair value at dates of gifts, less accumulated depreciation, computed on the straight-line basis over the estimated useful lives of the various assets, which range from 5 years to 40 years. Depreciation and operation and maintenance charges are allocated to appropriate functional expense categories. Plant disposals are removed from the records at time of disposal. The College lifts restrictions on contributions for long-lived assets at the time the assets are acquired.

Debt Issuance Costs

Costs incurred in connection with the issuance of the College's bonds and notes payable have been capitalized and are being amortized using the straight-line method, which approximates the interest method, over the term of the related bonds and notes. Effective July 1, 2016, the College adopted the provisions of FASB ASU 2015-03, *Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs.* ASU 2015-03 requires the College to present debt issuance cost as a direct deduction from the carrying amount of the related liability. The adoption required retrospective application. Therefore, the bonds and notes payable balances as of June 30, 2016 have been adjusted to present the balances net of debt issuance costs of \$1,260,055 and \$117,913, respectively.

Deferred Charges

Deferred charges consist of educational program costs specifically related to unrecognized tuition revenue and are recorded as deferred charges which are expensed as the program occurs.

Deferred Revenue

Early fall registration revenue and expenditures are deferred and are reported within the fiscal year in which the activities are completed.

Derivative Financial Instruments

The College employs derivatives in the form of interest rate swap agreements to manage market risk associated with outstanding variable-rate debt. Derivative financial instruments are reported at fair value with any resulting change in fair value recognized as a nonoperating item in the consolidated statements of activities.

B. <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> - Continued

Government Advances for Student Loans

Funds provided by the United States government under the Federal Perkins and Health Professions Student Loan programs are loaned to qualified students and may be reloaned after collection. These funds are ultimately refundable to the government and are therefore recorded as liabilities.

Health Services Division Revenue

Included in health services division revenue are amounts from the Meharry Medical Group, various clinics operated by the College and the Lloyd C. Elam Mental Health Center. The College has agreements with third-party payors that provide for payments to the College at amounts different from its established rates. Payment arrangements include prospectively determined rates per discharge, reimbursed costs, discounted charges, per diem payments and capitation. Such revenue is reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Contractual adjustments are accrued on an estimated basis in the period that the related services are rendered and adjusted in future periods as final settlements are determined.

Program Services

The College's primary program services are instruction, research, health services, and public service. Expenses reported as academic support, student services, and auxiliary enterprises are incurred in support of these primary program services. Institutional support includes fundraising expenses of \$2,218,160 and \$2,442,688 in 2017 and 2016, respectively. For purposes of reporting fundraising expenses, the College includes those fundraising costs incurred by its Development Office as well as an estimate of payroll-related expenditures incurred by members of management in fundraising activities.

Income Taxes

The College has received a determination letter from the Internal Revenue service indicating it is exempt from Federal income taxes under Section 501(c)(3) of the Internal Revenue Code; accordingly, no provision for income taxes is made in the consolidated financial statements. The College is not classified as a private foundation.

B. <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> - Continued

The College accounts for the effect of any uncertain tax positions based on a more likely than not threshold to the recognition of the tax positions being sustained based on the technical merits of the position under examination by the applicable taxing authority. If a tax position or positions are deemed to result in uncertainties of those positions, any unrecognized tax benefit is estimated based on a cumulative probability assessment that aggregates the estimated tax liability for all uncertain tax positions. Tax positions for the College include, but are not limited to, its tax-exempt status and determination of whether certain income is subject to unrelated business income tax. The College has determined that such tax positions do not result in an uncertainty requiring recognition.

Fair Value Measurements

Assets and liabilities recorded at fair value in the consolidated statements of financial position are categorized based on the level of judgment associated with the inputs used to measure their fair value (Note M). Level inputs are defined by ASC 820, *Fair Value Measurements* are as follows:

Level 1 - Values are unadjusted quoted prices for identical assets and liabilities in active markets accessible at the measurement date.

Level 2 - Inputs include quoted prices for similar assets or liabilities in active markets, quoted prices from those willing to trade in markets that are not active, or other inputs that are observable or can be corroborated by market data for the term of the instrument. Such inputs include market interest rates and volatilities, spreads and yield curves.

Level 3 - Certain inputs are unobservable (supported by little or no market activity) and significant to the fair value measurement. Unobservable inputs reflect the University's best estimate of what hypothetical market participants would use to determine a transaction price for the asset or liability at the reporting date.

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent), which exempts investments measured using the net asset value ("NAV") practical expedient in Accounting Standards Codification ("ASC") 820, Fair Value Measurement, from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for nonpublic entities for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is permitted. Management elected to early adopt the provisions of this new standard (See Note M).

C. <u>ACCOUNTS RECEIVABLE</u>

Accounts receivable consist of the following at June 30, 2017 and 2016:

	2017	2016
Receivable from grantors	\$ 5,405,038	\$ 6,069,597
Professional services receivable	7,372,022	4,484,592
Patient receivables, net of contractual and doubtful account allowances of \$3,108,751 and \$4,627,741 at June 30, 2017 and 2016,		
respectively	2,590,072	2,786,045
Student accounts receivable, net of allowance of \$345,868 and \$285,486 at June 30, 2017		
and 2016, respectively	5,995,679	7,628,292
Other accounts receivable	83,300	486,711
Total accounts receivable, net	<u>\$21,446,111</u>	<u>\$21,455,237</u>

D. <u>CONTRIBUTIONS RECEIVABLE</u>

The College includes unconditional promises to give as contributions receivable in accordance with the provisions of ASC 958, *Not-for-Profit Entities*.

	2017	2016
Unconditional promises to give Less unamortized discount at 5%	\$ 985,563 (20,380)	\$ 1,233,586 (69,738)
Unconditional promise to give, net	<u>\$ 965,183</u>	\$ 1,163,849
Amounts due in: Less than one year Two to five years	\$ 941,354 	\$ 850,366 383,221
	\$ 985,380	<u>\$1,233,587</u>

At June 30, 2017 and 2016, the College had also received bequest intentions and certain other conditional promises to give. These intentions and conditional promises to give are not recognized as assets and, if they are received, they will generally be restricted for specific purposes stipulated by the donors, primarily for faculty support, scholarships, or general operating support of a particular department or division of the College.

D. <u>CONTRIBUTIONS RECEIVABLE</u>

The College receives contributed services from alumni and other volunteers who assist in fundraising efforts through their participation in various fundraising drives. The value of such services, which the College considers not practicable to estimate, has not been recognized in the consolidated statements of activities.

E. STUDENT LOANS RECEIVABLE

Student loans receivable at June 30, 2017 and 2016, consisted of the following:

	2017	2016
Notes receivable - students Less allowance for doubtful loans	\$ 13,533,242 (255,532)	\$ 14,854,983 (289,009)
	\$ 13,277,710	<u>\$ 14,565,974</u>

The College makes uncollateralized loans to students based on financial needs presented by the student. Student loans are funded through government loan programs or institutional resources. Upon graduation, the students have a grace period on government loans, at which time the loan will also begin accruing interest. Loan amounts are repaid through a third party billing service. Student loans are considered past due when payment has not been received in over 30 days. At June 30, 2017 and 2016, student loans represented 3.7% and 4.2% of total assets, respectively.

The allowance for doubtful loans is established based on prior collection experience and current economic factors which, in management's judgment, could influence the ability of loan recipients to repay the amounts per the loan terms. Loan balances are written off only when they are deemed to be permanently uncollectible.

F. <u>INVESTMENTS</u>

Investments at June 30, 2017 and 2016, are summarized below:

	20	017	20	016
	Fair Value	Cost	Fair Value	Cost
Marketable securities:				
Cash equivalents	\$ 2,543,994	\$ 2,543,994	\$ 1,920,951	\$ 1,920,951
Mutual funds	34,225	32,066	5,435,409	5,122,378
Common stocks	103,491,576	97,837,691	102,854,499	97,837,376
Bonds	29,898,734	27,451,179	21,703,751	21,783,353
Hedge funds	12,187,451	6,700,000	10,910,966	6,700,000
Other	8,662,224	9,451,055	4,331,233	4,331,233
Total investments	<u>\$156,818,204</u>	<u>\$144,015,985</u>	<u>\$147,156,809</u>	<u>\$137,695,291</u>
Investment in real estat	te. net			
of accumulated depr	,	\$22,530,111		<u>\$23,439,361</u>

Mutual funds for 2017 and 2016 are comprised solely of fixed income securities.

The College's investments are substantially all permanently restricted endowment funds. The investment in real estate is comprised of the College's net investment in hospital facilities, which are leased to the Metropolitan Government of Nashville and Davidson County (the Metropolitan Government) to house the operations of the Metropolitan Government's Nashville General Hospital. The thirty-year lease with the Metropolitan Government began in December 1994 and provides for rent payments of \$4,000,000 per year.

G. <u>PLANT FACILITIES</u>

Plant facilities consist of the following at June 30, 2017 and 2016:

	2017	2016

G. <u>PLANT FACILITIES</u> - Continued

Plant operations and maintenance expenditures of \$10,918,568 and \$8,266,633 for the fiscal years ended June 30, 2017 and 2016, respectively, are allocated among functional expenses based on square footage percentages.

Depreciation expense was \$6,639,859 and \$6,819,329 for 2017 and 2016, respectively (of which \$909,250 in 2017 and 2016, was depreciation on the College's investment in real estate), is allocated among the various functional expense categories.

H. NOTES PAYABLE TO BANKS

In June 2013, the College entered into a \$8,638,395 note payable to a financial institution to provide funding for refinancing the unpaid balances from Revenue Bonds, Series 1998 and Revenue Bonds, Series 2001. Pursuant to the promissory note, the College was to make 20 consecutive semi-annual principal payments of \$431,920 plus interest through June 1, 2022 at a fixed interest rate of 3.04%. The note was collateralized by certain property on the College's campus. As of June 30, 2016, the outstanding balance on this note totaled \$5,160,365. During fiscal 2017, the note was repaid in full by the College.

The College has a \$5,000,000 revolving line of credit with a financial institution. All accrued interest shall be paid on the first (1st) day of each quarter and the principal balance and all unpaid accrued interest shall be due on the maturity date, April 26, 2018. Interest shall accrue at the 1 month LIBOR rate on the first (1st) day of each calendar month. As of June 30, 2017 and 2016, the outstanding balance on the line of credit was \$3,000,000 and \$1,000,000, respectively.

The College had a \$7,500,000 delayed draw loan agreement with a financial institution. The proceeds of this loan are to be used for the refinancing of certain properties, certain capital improvements, and will assist with the modifications and development of a Physician Assistant Program. During the draw period, interest only, will be computed on the unpaid principal balance and is due and payable monthly on the first day of each month commencing August 1, 2012 until the end of the draw period. During the repayment period, the College was to make 15 semi-annual principal payments plus accrued interest which began August 1, 2014 and one final payment of the remaining principal balance and accrued interest on August 1, 2022 at a variable rate of the 1 month LIBOR rate plus 1.65% (2.14% as of June 30, 2016). As of June 30, 2016, the outstanding balance on this note totaled \$5,625,000. During fiscal 2017, the note was repaid in full by the College.

H. NOTES PAYABLE TO BANKS - Continued

In August 2016, the College entered into a \$4,868,855 delayed draw loan agreement with a financial institution. The proceeds of this loan are to be used for the refinancing of debt, capital improvements, renovations to buildings, and expansion of educational programs. During the draw period, interest only at the rate of 2.9%, will be computed on the unpaid principal balance and is due and payable semi-annually commencing on February 1, 2017 and continuing through August 1, 2018. Beginning on February 1, 2019, semi-annual payments of principal and interest sufficient to fully amortization and pay the outstanding balance at August 1, 2018 over 10 years shall be due and payable on the first (1st) day of February and August through the August 1, 2026 maturity date, at which time any outstanding principal and interest is due. As of June 30, 2017, the outstanding balance on this note totaled \$2,915,388.

The notes payable contain certain restrictive covenants, including a minimum debt service coverage ratio. The College was in compliance with the covenants and ratios at June 30, 2017.

Maturities of notes payable and the revolving line of credit at June 30, 2017, are as follows:

Year Ending June 30,	<u>Amount</u>
2018	\$3,000,000
2019	126,700
2020	258,937
2021	266,500
2022	274,286
Thereafter	1,988,965
	\$5,915,388

I. <u>BONDS PAYABLE</u>

Bonds payable consist of the following at June 30, 2017 and 2016:

	2017	2016
Revenue Bonds, Series 2016A	\$ 9,051,468	\$ -
Revenue Bonds, Series 2016B	313,707	-
Future Advance Project Funding Bonds,		
Series A 2012-8	55,333,380	56,046,188
Revenue Bonds, Series 2009	17,025,000	17,025,000
Revenue Bonds, Series 1996, net of unamortized discount of \$6,393 and \$8,242 at June 30, 2017 and 2016,		
respectively	8,223,607 89,947,162	10,651,758 83,722,946
Less:		
Unamortized debt issuance costs (Note B)	(1,278,580)	(1,260,055)
Total bonds payable, net	\$ 88,668,582	<u>\$ 82,462,891</u>

On August 26, 2016, the College issued Revenue Bonds, Series 2016A and 2016B, in the amounts of \$9,481,145 and for up to \$1,250,000, respectively, through the Health and Educational Facilities Board of The Metropolitan Government of Nashville and Davidson County, Tennessee. Under the terms of the bond indenture, the proceeds are to be used to repay certain outstanding debt, provide additional funding for renovation of certain campus buildings and for the acquisition of certain land adjacent to the campus for future student housing and parking. The underlying promissory notes for the Revenue Bonds, Series 2016A and 2016B are payable in monthly principal and interest payments bearing interest at 2.90% through maturity on August 1, 2026. These bonds are collateralized by certain property of the College.

On August 30, 2012, the College closed on a capital project loan in the form of a Future Advance Project Funding Bond Series (A 2012-8) in an amount not to exceed \$60,000,000. This funding was financed through the U.S. Department of Education's Capital Financing Program via Rice Capital Access Program, LLC. The loan proceeds are to be used for various campus construction projects. Under the terms of the loan agreements, capitalized interest through October 1, 2014 and the first monthly payment was due on November 2, 2015. The loan is a 30 year fixed rate loan to mature on March 1, 2042. During the construction phase, the rates were based on U.S. Treasury yields prevailing at the dates of each advance plus applicable federal financing bank and designated bonding fees. The interest on the Series A 2012-8 Bonds is fixed, equal to the U.S. Treasury Bond rate + 22.5 basis points. The trustee handling the bond issue held funds aggregating \$3,860,123 and \$3,984,081 at June 30, 2017 and 2016, respectively.

I. BONDS PAYABLE - Continued

On December 3, 2009, the College issued Adjustable Rate Revenue Refunding Bond, Series 2009 (Series 2009 Bonds), in the amount of \$17,025,000 through the Health and Educational Facilities Board of the Metropolitan Government of Nashville and Davidson County, Tennessee. These bonds are collateralized by a letter of credit. Under the terms of the bond indenture, the proceeds were used to refinance \$17,025,000 of the outstanding Series 1996 Revenue Bonds. The Series 2009 Bonds bear interest as determined weekly by the Remarketing Agent (.16% at June 30, 2017).

The 2016, 2012 and 2009 bond issues contain certain restrictive covenants, including a minimum debt service coverage ratio. As of June 30, 2017 and 2016, the College was in compliance with the restrictive covenants including the minimum debt service coverage ratio.

On August 14, 1996, the College issued Revenue Bonds, Series 1996, in the amount of \$55,050,000 through the Health and Educational Facilities Board of The Metropolitan Government of Nashville and Davidson County, Tennessee. Under the terms of the bond indenture, the proceeds were used to refinance the Revenue Bonds, Series 1994 in the amount of \$48,725,000. The Revenue Bonds, Series 1996 were also issued to provide additional funding for the hospital renovation, to improve and acquire equipment for other related facilities, and for working capital. The Series 1996 bonds bear interest semi-annually at 3.85% to 3.85%. These bonds are collateralized by (1) all right, title, and interest of the College to rental payments owed to the College pursuant to the lease of the Facility to the Metropolitan Government, (2) the lien on the Facility pursuant to a mortgage and a security agreement, and (3) all funds held under the indenture. The trustee handling the bond issue held funds aggregating \$2,113,464 and \$2,031,575 at June 30, 2017 and 2016, respectively.

I. <u>BONDS PAYABLE</u> - Continued

The aggregate scheduled principal maturities of bonds payable at June 30, 2017, are as follows:

Revenue Year Ending June 30,	Revenue Bonds Series 2016A	Revenue Bonds Series 2016B	Future Advance Project Fundin Bonds Series A 2012-8	g Revenue	Revenue Bonds Series 1996	<u>Total</u>

unamortize discount Less unamortize	-	-	-	-	(7,318)	(7,318)
debt issue costs _ Total bonds	(97,850)	(3,339)	(858,173)		(319,218)	(1,278,580)
	§ 8,953,618	<u>\$ 310,368</u>	<u>\$ 54,475,207</u>	<u>\$17,025,000</u>	<u>\$ 7,903,464</u>	<u>\$ 88,667,657</u>

J. INTEREST RATE SWAP ARRANGEMENTS

To manage variable interest rate exposure for its debt portfolio, in December 2009, the College entered into a interest rate swap arrangement with a major financial institution. The total original notional amount was \$17,025,000 for this swap arrangement. The swap notional amount will gradually decline, corresponding to the principal amortization of the College's Series 2009 bonds. The arrangement for the Series 2009 bonds is scheduled to expire in December 2024. The College pays a fixed rate of 4.70% under the remaining arrangement.

As of June 30, 2017 and 2016, the estimated fair value loss of the Series 2009 bond swap arrangement was \$2,866,216 and \$4,191,062, and is included in accrued liabilities and as a component of unrestricted net assets.

K. <u>EMPLOYEE BENEFIT PLANS</u>

The College sponsors multiple plans which cover substantially all employees of the College. The details of the plans are as follows:

403(b) Meharry Medical College Defined Contribution Plan

The Plan is a defined contribution plan which covers substantially all employees except those in the residency programs. Union and non-union employees are eligible to participate upon reaching the age of eighteen, and are eligible to receive matching contributions upon reaching the age of twenty-one and completing one year of service. The Plan is funded by employee contributions which may not exceed the Internal Revenue Service annual limitations (\$18,000 for individuals less than age 50 for calendar years 2016 and 2015; and \$24,000 and \$23,500 for individuals age 50 and older for calendar years 2016 and 2015, respectively).

The College provides a contribution to the non-union employees at a rate equal to 1% of the non-union employee's compensation. In addition, the non-union employees receive a matching contribution of 100% of their elective deferral up to 4% of their compensation not to exceed \$12,750. The College has the discretion to vary the contribution rate.

The employer expense under this plan for the years ended June 30, 2017 and 2016 amounted to \$1,940,271 and \$1,916,876, respectively.

K. <u>EMPLOYEE BENEFIT PLANS</u> - Continued

Retirement Income Plan

This noncontributory defined benefit retirement plan that covers only union eligible employees was frozen by an amendment adopted January 1, 2009. Pursuant to ASC 715 *Compensation - Retirement Benefits*, the College recognizes in its consolidated statements of financial position the over-funded or under-funded status of the defined benefit retirement plan.

The status of the plan at June 30, 2017 and 2016, was as follows:

	2017	2016
Change in benefit obligation:		
Projected benefit obligation at beginning of year	\$ 3,889,392	\$ 4,046,724
Service cost	56,802	61,836
Interest cost	240,581	243,452
Loss (gain) due to plan experience	480,880	63,416
Actual benefit disbursements and settlement	(598,631)	(526,036)
Projected benefit obligation at the end of year	4,069,024	3,889,392
Change in plan assets:		
Fair value of plan asset at beginning of year	4,812,214	5,221,775
Actual contributions	275,000	150,000
Actual benefit disbursements and settlements	(598,631)	(526,036)
Actual return on plan assets	472,780	(33,525)
Fair value of plan assets at end of year	4,961,363	4,812,214
Funded status:		
Net pension asset	\$ 892,339	<u>\$ 922,822</u>
Key assumptions:		
Discount rate	7.50%	7.50%

The College's expected long-term return on plan assets assumption is based on a periodic review and modeling of the plans' asset allocation and liability structure over a long-term horizon. Expectations of returns for each asset class are the most important of the assumptions used in the review and modeling and are based on comprehensive reviews of historical data and economical/financial market theory. The expected long term rate of return on assets was selected from within the reasonable range of rates determined by (a) historical returns, net of inflation, for the asset classes covered by the investment policy, and (b) projections of inflation over the long term period during which benefits are payable to plan participants.

K. <u>EMPLOYEE BENEFIT PLANS</u> - Continued

The College's investment policy includes various guidelines and procedures designed to ensure assets are invested in a manner necessary to meet expected future benefits earned by participants. The investment guidelines consider a broad range of economic conditions. Central to the policy are target allocation ranges by major asset categories.

The objectives of the target allocations are to maintain investment portfolios that diversify risk through prudent asset allocation parameters, achieve asset returns that meet or exceed the plans' actuarial assumptions, and achieve asset returns that are competitive with like institutions employing similar investment strategies.

The investment policy is periodically reviewed by the College and a designated third-party fiduciary for investment matters. The policy is established and administered in a manner so as to comply at all times with applicable government regulations.

The College expects to contribute \$240,000 to its pension plan in the year ended June 30, 2018.

The following pension benefit payments, which reflect expected future services and participants electing life annuities at retirement age 65, as appropriate, are expected to be paid for the years ended June 30:

2018	\$190,525
2019	332,092
2020	260,092
2021	257,794
2022	257,683
2022 to 2026	1,030,679

If lump sum payouts are elected they can materially accelerate cash benefit payments estimated above.

L. <u>NET ASSETS</u>

Under provisions of ASC 958, unrestricted net assets are those which are not subjected to donor-imposed restrictions. Substantially all of the net assets classified as unrestricted in the consolidated statements of financial position as of June 30, 2017 and 2016 have been invested in property and equipment.

The refunding of debt service amounts shown as a reduction of unrestricted net assets resulted from refinancing transactions in 1997 and 1999, and represents the loss recognized under accounting principles generally accepted in the United States of America to enact the refinancing. This component of unrestricted net assets is being amortized into unrestricted net assets available for operations over the lives of the related bond issues

Temporarily restricted net assets are primarily available for scholarships and instruction and research.

Permanently restricted net assets consist primarily of perpetual endowment funds, scholarships, and instruction and research.

Certain reclassifications to the fiscal 2016 net asset amounts have been made to conform to the 2017 presentation.

M. FAIR VALUES OF FINANCIAL INSTRUMENTS

Required disclosures concerning the estimated fair value of financial instruments are presented below. The estimated fair value amounts have been determined based on the College's assessment of available market information and appropriate valuation methodologies. The following table summarizes required fair value disclosures under ASC 825 *Financial Instruments* and measurements at June 30, 2017 and 2016 for the assets measured at fair value on a recurring basis under ASC 820 *Fair Value Measurements*:

June 30, 2017	Carrying Amount	ASC 825 Estimated Fair Value	Assets/Liabilitie Measured at Fair Value		<u>e Measuremen</u> Level 2	ts Using Level 3

M. FAIR VALUES OF FINANCIAL INSTRUMENTS - Continued

The following methods and assumptions were used to estimate the fair value of each class of financial instrument:

Cash and Cash Equivalents and Funds Held by Trustees

Cash is reflected at carrying value, which is considered its fair value.

Accounts and Student Loans Receivable

Accounts receivable consist primarily of receivables from grantor agencies, professional and patient receivables and other short-term receivables. The student loans receivable of \$13,277,710 and \$14,565,974 at June 30, 2017 and 2016, respectively, consist principally of government loan programs and are not readily marketable. The College has estimated their fair value to be the carrying value.

Contributions receivable

Contribution receivable are recorded at net present value as discussed in Notes B and D, which approximates their fair value.

Investments

The fair value of investments, as disclosed in Note F has been calculated based on quoted market prices, where available, and certain other Level 2 inputs. The University has certain investments in hedge funds that invest in multi-faceted, domestic and international companies operating in various industries. Each hedge fund employs its own strategies in determining investment opportunities. The fair values of these investments are estimated at the net asset value per share of the investments, using the practical expedient, and are therefore not required to be included in the fair value hierarchy table. Hedge funds valued at net asset value as of June 30, 2017 and 2016 were \$12,187,451 and \$10,910,966, respectively.

Accounts Payable, Accrued Liabilities, and Deferred Revenues

The carrying value of these items approximates fair value due to the short-term nature of the obligations.

M. <u>FAIR VALUES OF FINANCIAL INSTRUMENTS</u> - Continued

Bonds Payable and Notes Payable

The bonds and notes payable reflected in the consolidated financial statements bear interest at floating rates and fixed rates. The carrying value of these debt instruments will differ from their fair value depending on current market rates. The fair value was estimated by calculating the net present value of the future payment stream using the current market interest rate

Interest Rate Swap Agreements

Fair value has been estimated as the difference between the estimated future interest payments at contractual variable rates and expected future variable rates as of June 30, 2017 and 2016, respectively, and fixed interest rates specified in the related swap agreements, discounted to present value.

The fair value estimates presented herein are based on pertinent information available to management as of June 30, 2017 and 2016, respectively. Although management is not aware of any factors that would significantly affect the estimated fair value amounts, such amounts have not been comprehensively revalued for purposes of the consolidated financial statements since that date, and current estimates of fair value may differ significantly from the amounts presented herein.

N. COMMITMENTS AND CONTINGENT LIABILITIES

The College leases certain buildings and equipment under non-cancelable operating leases which expire at various dates through 2023. Rent expense under these lease arrangements amounted to \$755,265 and \$745,574 for the years ended June 30, 2017 and 2016, respectively.

Future minimum rental payments required under operating leases that have initial or remaining lease terms in excess of one year as of June 30, 2017, are as follows:

Year Ending June 30,	<u>Amount</u>	
2018	\$ 682,201	
2019	552,506	
2020	312,359	
2021	119,126	
2022	110,989	
Thereafter	111,709	
Total	\$1,888,890	

N. COMMITMENTS AND CONTINGENT LIABILITIES - Continued

Certain revenues, particularly Federal and state grants and contracts, are subject to adjustments based upon review by the granting agencies. Management does not anticipate that adjustments, if any, arising from such reviews would have a material effect on the consolidated financial statements

The College is a defendant in lawsuits arising in the normal course of business. Management and legal counsel are of the opinion that insurance coverage is sufficient to satisfy any judgment or settlement liability.

O. CONCENTRATIONS OF CREDIT RISK

The College, in connection with its activities, grants credit that involves, to varying degrees, elements of risk. The maximum accounting loss from credit risk is limited to the amounts that are recognized in the accompanying consolidated statements of financial position as accounts receivable at June 30, 2017 and 2016.

Financial instruments which potentially subject the College to concentrations of credit risk consist principally of cash and investments held by the College and certain investment institutions. Cash at June 30, 2017 and 2016 includes demand deposits at high quality financial institutions. The deposits are exposed to credit risk to the extent they exceed federally insured limits. The exposure to concentrations of credit risk relative to securities is dependent on the College's investment objectives and policies.

P. <u>ENDOWMENT</u>

The College's endowment consists of individual donor-restricted funds established for a variety of purposes and includes both donor-restricted endowment funds and funds designated by the Board of Trustees to function as endowments. As required by Generally Accepted Accounting Principles, net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions

Interpretation of Relevant Law

The Board of Trustees of Meharry Medical College has interpreted the applicable state laws as requiring the preservation of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the College classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the College in a manner consistent with the standard of prudence prescribed by applicable state laws. In accordance with applicable state laws, the College considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- the duration and preservation of the fund;
- the purposes of the College and the donor-restricted endowment fund;
- general economic conditions;
- the possible effect of inflation and deflation;
- the expected total return from income and the appreciation of investments;
- other resources of the College; and
- the investment policies of the College

P. <u>ENDOWMENT</u> - Continued

P. ENDOWMENT - Continued

Return Objectives and Risk Parameters

The College has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that the College must hold in perpetuity or for a donor-specified period(s). Under this policy, as approved by the Board of Trustees, the endowment assets are invested in a manner that is intended to produce on average, over a period of five years, a total rate of return between 6% to 9% per year. Actual returns in any given year may vary from this amount.

Strategies Employed for Achieving Objectives

To satisfy its long-term rate-of-return objectives, the College relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The College targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk constraints.

Spending Policy and How the Investment Objectives Relate to Spending Policy

The College's objective is to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term as well as to provide additional real growth through new gifts and investment return. The Board of Trustees has decided that a prudent spending policy provides up to 4.5% of the market value of the Endowment Funds to the College for annual operating needs. To smooth out the short-term fluctuations in market prices, a three-year moving average of market value is used.

Q. SUBSEQUENT EVENTS

The College has evaluated subsequent events through October 28, 2017, the issuance date of the College's consolidated financial statements, and has determined that there are no subsequent events that require disclosure.
