Part III Statement of Program Service Accomplishments

Form 990 is available for public inspection and, for some people, serves as the primary or sole source of information about a particular organization. How the public perceives an organization in such cases may be determined by the information presented on its return. Therefore, please make sure the return is complete and accurate and fully describes, in Part III, the organization's programs and accomplishments.

What is the organization's primary exempt purpose? ▶ see attached statement

All organizations must describe their exempt purpose achievements in a clear and concise manner. State the number of clients served, publications issued, etc. Discuss achievements that are not measurable. (Section 501(c)(3) and (4) organizations and 4947(a)(1) nonexempt charitable trusts must also enter the amount of grants and allocations to others.)

Program Service Expenses
(Required for 501(c)(3) and (4) organizations and 4947(a)(1) trusts; but optional for others.)

a To provide services to persons with mental retardation and other disabilities in the areas of supported living, specialized equipment supplies and personal assistance.

	<p>1. The first step in the process of developing a new product is to identify a market need. This is often done through market research, which can involve surveys, focus groups, and other techniques. The goal is to understand what customers want and what problems they are trying to solve.</p> <p>2. Once a market need has been identified, the next step is to develop a concept for a product that meets that need. This involves brainstorming ideas and creating a rough sketch of the product. It is important to consider the feasibility of the idea and whether it can be produced at a reasonable cost.</p> <p>3. The third step is to create a prototype of the product. This can be done using a variety of materials and techniques, depending on the nature of the product. The prototype is used to test the product's design and functionality, and to get feedback from potential customers.</p> <p>4. After the prototype has been tested, the next step is to develop a business plan for the product. This plan should outline the marketing strategy, the production process, and the financial projections for the product. It is important to have a clear understanding of the costs and potential revenue of the product before moving forward.</p> <p>5. The final step is to launch the product into the market. This involves creating a marketing campaign to promote the product and getting it into stores or online. It is important to monitor the product's performance in the market and to be prepared to make adjustments as needed.</p>	<p>1.
