INDEPENDENT AUDITORS' REPORT

To the Board of Directors
The Big Table
Spokane, Washington

We have audited the accompanying financial statements of The Big Table (a nonprofit corporation), which comprise the statements of financial position as of December 31, 2022 and 2021, and the related statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of The Big Table as of December 31, 2022 and 2021, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of The Big Table and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about The Big Table's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of The Big Table's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about The Big Table's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

THE BIG TABLE

NOTES TO THE FINANCIAL STATEMENTS

For the years ended December 31, 2022 and 2021

Note 1 – Nature of the Organization

The Big Table ("Big Table" or "the Organization") is a Washington nonprofit corporation which was incorporated on March 15, 2007. Our industry – the restaurant and hospitality industry – is full of amazing and gifted people and hires people no other industry will. These hard-working people have significantly increased risk for financial and emotional crisis as compared to other industries. Yet because hospitality workers are naturally required to keep smiles on their faces, their needs are virtually invisible to the world. Their job is to serve and take care of others – Big Table's mission is to walk alongside and help take care of them when they need it most. Current locations of offices are Spokane, Washington; Seattle, Washington (see Note 9); Nashville, Tennessee; and San Diego, California. In March 2023, an additional office was opened in Colorado Springs, Colorado. There are also satellite offices in the metropolitan areas of the office locations.

Note 2 – Significant Accounting Policies

Basis of Presentation

The financial statements of Big Table have been prepared on the accrual basis of accounting under accounting principles generally accepted in the United States of America (GAAP). For the purposes of financial reporting, Big Table classifies resources into two net asset categories pursuant to any donor-imposed restrictions. Accordingly, the net assets of Big Table are classified and reported as follows:

Net assets without donor restrictions – Consists of net assets that are not subject to donor-imposed stipulations. These net assets are available for use at the discretion of the Board of Directors (the Board) and/or management for general operating purposes. From time to time the Board designates a portion of these net assets for specific purposes which makes them unavailable for use at management's discretion. Currently, the Board has designated a portion of net assets without donor restrictions as operating and strategic marketing reserves.

Net assets with donor restrictions – Consists of net assets subject to donor-imposed time and/or purpose restrictions. Big Table reports gifts of cash and other assets as revenue with donor restrictions if they are received with donor stipulations that limit the use of the donated assets. When a stipulated time restriction ends or purpose restriction is accomplished, the net assets are reclassified as net assets without donor restrictions and reported in the statements of activities as net assets released from restrictions.

Cash and Cash Equivalents

Big Table considers all highly liquid investments with original maturities of three months or less to be cash equivalents. Big Table had cash balances in excess of federally-insured limits in the amount of \$895,878 as of December 31, 2022.

Use of Estimates

The preparation of financial statements in conformity with United States generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

THE BIG TABLE

NOTES TO THE FINANCIAL STATEMENTS

For the years ended December 31, 2022 and 2021

Functional Allocation of Expenses

Expenses directly attributable to a specific functional area of Big Table is reported as expenses of those functional areas. A portion of general and administrative costs that benefit multiple functional areas (indirect costs) have been allocated across program activities based on the proportion of full-time employee equivalents of a program activity versus the total organizational full-time employee equivalents. The following table provides a summary of the allocation methodology for each category of expense:

Expense Category	Method of Allocation
Personnel and related expenses	Time and effort/staff count
Direct care expenses	Direct
General and administrative	Time and effort
Occupancy	Time and effort
Development expenses	Direct
Depreciation	Time and effort
Other	Time and effort

Advertising

Advertising and marketing costs are charged to expense as incurred. Marketing and promotion costs totaled \$12,856 and \$26,259 in 2022 and 2021, respectively.

Income Taxes

Big Table is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code.

Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset in the principal or most advantageous market for the asset in an orderly transaction between market participants on the measurement date. Fair value should be based on the assumptions market participants would use when pricing an asset. GAAP establishes a fair value hierarchy that prioritizes investments based on those assumptions. The fair value hierarchy gives the highest priority to quoted prices in active markets (observable inputs) and the lowest priority to an entity's assumptions (unobservable inputs). Big Table groups assets at fair value in three levels, based on the markets in which the assets and liabilities are traded, and the reliability of the assumptions used to determine fair value. These levels are:

Level 1	Unadjusted quoted market prices for identical assets or liabilities in active markets as of the measurement date.
Level 2	Other observable inputs, either directly or indirectly, including: <ul style="list-style-type: none">• Quoted prices for similar assets/liabilities in active markets;• Quoted prices for identical or similar assets in non-active markets;• Inputs other than quoted prices that are observable for the asset/liability; and,• Inputs that are derived principally from or corroborated by other observable market data.
Level 3	Unobservable inputs that cannot be corroborated by observable market data.

THE BIG TABLE

NOTES TO THE FINANCIAL STATEMENTS

For the years ended December 31, 2022 and 2021

The respective carrying values of financial assets or liabilities on the statements of financial position approximate their fair values due to the short-term nature of the assets or liabilities.

Property and Equipment

Property and equipment purchased are carried at cost, net of accumulated depreciation. Donated property and equipment are carried at estimated fair value at date of donation. Intangible assets purchases are carried at cost, net of accumulated amortization. Acquisitions of \$2,500 or less are charged to expense. Depreciation is computed primarily by the straight-line method over the estimated useful lives of the assets, ranging from 5 to 20 years.

Revenue Recognition

Big Table recognizes contributions when cash, securities or other assets, an unconditional promise to give, or a notification of a beneficial interest is received. Conditional promises to give, that is, those with a measurable performance or other barrier, and a right of return, are not recognized until the conditions on which they depend have been substantially met.

Leases

Big Table determines if an arrangement is or contains a lease at inception. Leases are included in right-of-use ("ROU") assets and lease liabilities in the statement of financial position. ROU assets and lease liabilities reflect the present value of the future minimum lease payments over the lease term, and ROU assets also include prepaid or accrued rent. Operating lease expense is recognized on a straight-line basis over the lease term. Big Table does not report ROU assets and leases liabilities for its short-term leases (leases with a term of 12 months or less). Instead, the lease payments of those leases are reported as lease expense on a straight-line basis over the lease term.

Recently Adopted Accounting Standards

In 2022, Big Table adopted Accounting Standards Update (ASU) No. 2016-02, *Leases*, which requires lessees to recognize leases on the statement of financial position and disclose key information about leasing arrangements. Big Table elected not to restate the comparative period (2021). It also elected not to reassess at adoption (i) expired or existing contracts to determine whether they are or contain a lease, (ii) the lease classification of any existing leases, or (iii) initial direct costs for existing leases. As a result of implementing ASU No. 2016-02, Big Table recognized right-of-use assets and lease liabilities totaling \$441,481 in its statement of financial position as of January 1, 2022. The adoption did not result in a significant effect on amounts reported in the statement of activities for the year ended December 31, 2021.

Subsequent Events

Management has evaluated subsequent events through June 9, 2023, which is the date these financial statements were available to be issued.

THE BIG TABLE

NOTES TO THE FINANCIAL STATEMENTS

For the years ended December 31, 2022 and 2021

Note 3 – Leases

Big Table evaluated current contracts to determine which met the criteria of a lease. The right-of-use (ROU) assets represent Big Table's right to use underlying assets for the lease term, and the lease liabilities represent Big Table's obligation to make lease payments arising from these leases. The ROU assets and lease liabilities, all of which arise from operating leases, were calculated based on the present value of future lease payments over the lease terms. Big Table has made an accounting policy election to use a risk-free rate in lieu of its incremental borrowing rate to discount future lease payments. The weighted-average discount rate applied to calculate lease liabilities as of December 31, 2022 was 2.66%.

Big Table's operating leases consist primarily of real estate leases for three suites of office space located in Spokane and additional spaces in California, Tennessee, and Colorado (effective in 2023). The Spokane lease includes two four-year extensions, available at Big Table's option, which it is reasonably certain to exercise. Therefore, the payments associated with the extension are included in the ROU asset and the lease liability recognized as of December 31, 2022. The other leases that were effective in 2022 are considered to be short-term and not included on the statement of financial position.

For the year ended December 31, 2022, total operating lease cost was \$114,392 and total short-term lease cost was approximately \$53,000. As of December 31, 2022, the weighted-average remaining lease term for the Big Table's operating leases was approximately 7 years.

Cash paid for operating leases for the year ended December 31, 2022 was \$110,203. There were no noncash investing and financing transactions related to leasing other than the transition entry included on the statement of cash flows.

Future maturities of lease liabilities are presented in the following table, for the fiscal years ending December 31:

2023	\$	54,516
2024		58,621
2025		60,859
2026		62,660
2027		62,736
Thereafter		<u>172,524</u>
Total lease payments		471,916
Less present value discount		<u>(60,214)</u>
Total lease obligations		411,702
Less short-term portion of lease liability		<u>(52,176)</u>
Long-term portion of lease liability	\$	<u><u>359,526</u></u>

THE BIG TABLE

NOTES TO THE FINANCIAL STATEMENTS

For the years ended December 31, 2022 and 2021

Note 4 – Retirement Contributions

Big Table holds a SIMPLE IRA plan in which employees' contributions are matched up to 3% of eligible salaries. In order for employees to participate in the plan, they must have earned at least \$5,000 in wages from Big Table in the prior year. Employer contributions were \$26,111 and \$18,627 for the years ended December 31, 2022 and 2021, respectively.

Note 5 – Beneficial Interest in Assets Held by Innovia Foundation

During 2020, Big Table established the Big Table Endowment Fund ("the Fund") with Innovia (a nonprofit corporation in Spokane, Washington) by a transfer of \$10,000 to Innovia. Additional contributions of approximately \$70,000 were received since the fund was established.

The Fund is considered an agency endowment fund of Innovia and Big Table is the Fund's designated beneficiary. Accordingly, Big Table has a beneficial interest in the Fund's assets held by Innovia. The distributable income of the Fund is subject to assessment for the costs of fund administration by Innovia and will be distributed to Big Table, to be used for its charitable purposes, provided that at the time of such distribution Big Table has retained its nonprofit tax status.

Since this account resulted from an internal designation and is not donor-restricted, it is classified and reported as unrestricted board designated net assets. Innovia's spending policies are designed to protect the long-term viability of endowments by addressing the distribution of assets, investment authority, delegation of investment management, standards of conduct and releasing of restrictions on the use of the endowment or investments. The distributable amount is based on the average market value over a 13-quarter rolling average.

Note 6 – Liquidity and Availability of Resources

Big Table strives to maintain liquid financial assets sufficient to maintain a reserve of \$500,000 for general expenditures. The following table reflects Big Table's financial assets as of December 31, 2022 and 2021, reduced by amounts that are not available to meet general expenditures within one year of the statement of financial position date. A summary of assets available as of yearend to meet general expenditures is as follows:

	2022	2021
Cash and cash equivalents	\$ 1,660,954	\$ 1,732,032
Total financial assets	1,660,954	1,732,032
Less amounts not available to be used within one year:		
Net assets with donor restrictions	446,897	223,608
Financial assets available to meet general expenditures within one year	<u>\$ 1,214,057</u>	<u>\$ 1,508,424</u>

THE BIG TABLE
NOTES TO THE FINANCIAL STATEMENTS

For the years ended December 31, 2022 and 2021

Note 7 – Net Assets With Donor Restrictions

Net assets with donor restrictions are available for the following purposes or periods as of December 31:

	2022	2021
Direct assistance	\$ 31,078	\$ 9,415
Housing assistance	100,000	10,000
Expansion	293,437	131,550
Dental and health assistance	14,185	12,831
Nashville operations	-	50,000
Colorado expansion	5,000	-
Technology grant	1,444	-
Videos for events	1,753	9,812
Net assets with donor restrictions	\$ 446,897	\$ 223,608
