Joint Costs. Check ► ✓ If you are following SOP 98-2

Are any joint costs from a combined educational campaign and fundraising solicitation reported in **(B)** Program services? Yes No If "Yes," enter **(i)** the aggregate amount of these joint costs \$\frac{195,343,000}{2000}\$, **(ii)** the amount allocated to Program services \$\frac{114,129,000}{2000}\$, **(iii)** the amount allocated to Fundraising \$63,231,000

Part III Statement of Program Service Accomplishments (See the instructions.)

Form 990 is available for public inspection and, for some people, serves as the primary or sole source of information about a particular organization. How the public perceives an organization in such cases may be determined by the information presented on its return Therefore, please make sure the return is complete and accurate and fully describes, in Part III, the organization's programs and accomplishments

What is the organization's primary exempt purpose? F Build healthier lives free of cardiovascular diseases and stroke

Expenses (Required for 501(c)(3) and (4) orgs , and 4947(a)(1) trusts, but optional for

Program Service

others)

All organizations must describe their exempt purpose achievements in a clear and concise manner State the number of clients served, publications issued, etc Discuss achievements that are not measurable (Section 501(c)(3) and (4) organizations and 4947(a)(1) nonexempt charitable trusts must also enter the amount of grants and allocations to others)

Diseases, Disorders & Medical Disciplines, General Research The American Heart Association funds research at both the national and affiliate (regional) levels Since the Association became a voluntary health organization in 1948, we have spent more than \$2.9 billion dollars for projects that explore the prevention, detection and treatment of heart disease and stroke Grants support projects, fellowships and investigatorships for research training or career development for a specific period of time. During the past year, the Association funded 1,157 new awards, including 560 grants and 597 fellowships. The American Heart Association invested \$163.7 million in 2007-2008 to fund cardiovascular research. That was 24 5 percent of the Association's expenses for the fiscal year. The American Heart Association's research commitment over the past half century has helped lead to developments such as pacemakers, open-heart surgery, heart transplantation, clot-busting drugs and both automated external defibrillators and implantable defibrillators that can stop potentially fatal heart rhythm problems Now scientists and professionals are gaining new insights into the workings of the cardiovascular system, including its genetic and cellular foundations, which will provide more answers on how to prevent and/or treat cardiovascular disease and stroke (1157 Grants and Fellowships)

163,701,184

(Grants and allocations \$ 157,549,317) If this amount includes foreign grants, check here 🕨 🦵 **b** Diseases, Disorders & Medical Disciplines, General Public Health Education Informing all Americans about ways to reduce their risk of heart disease and stroke is another major objective of the American Heart Association To do that, the Association spent \$240 0 million, or 36 0 percent of all 2007-2008 expenses Alliance for a Healthier Generation This year, the American Heart Association continued its joint initiative with the Clinton Foundation to stop the increase of childhood obesity in the United States by 2010 and reduce the prevalence of childhood obesity by 2015 The Alliance has four key initiatives the industry initiative, Healthy Schools Program, a by kids, for kids movement (the Go Healthy Challenge), and healthcare initiatives. During the first year of implementation, the Alliance Beverage Guidelines resulted in a 45% decrease in full-calorie drink sales with a 23% increase in water sales in schools nationwide. These agreements are the first-ever voluntary guidelines for snacks and side items sold in schools that are providing healthier food choices for nearly 35 million American students. The Healthy Schools Program provides on-site support to 1,364 schools, up from 230 schools in 2007-2008, and online guidance to more than 1,500 schools, up from 900 schools at the end of last year To-date, nearly 1 million kids across the country have engaged and taken the Go Healthy Challenge by making a commitment to learn about healthy lifestyles and committing to help themselves, their families, friends and communities make positive changes. Through our Kids' Movement the Alliance is making healthy lifestyles "cool" for kids through collaboration with media, celebrity and grassroots collaborators like Rachael Ray's Yum-O', YMCA, NBA, Channel One, Camp Fire USA, and the Jewish Community Center Association Go Red For Women During its fifth year, Go Red for Women celebrated major milestones and embarked on new endeavors as it continued to spread the message about women's No 1 killer, heart disease 3 More than 650,000 women have joined the movement and 96 percent have taken positive steps to reduce their risk of heart disease * More than 16 million red dress pins have been worn in support of Go Red For Women * More than 1 4 million women have launched the Go Red Heart CheckUp * More than 220 Go Red For Women luncheons were held across the country, raising approximately \$35 million * House Speaker Nancy Pelosi helped "Congress Go Red," supporting the HEART For Women Act, which has more than 270 co-sponsors in Congress To drive awareness for American Heart Month and National Wear Red Day, Go Red For Women launched a new Web site and held its first-ever Nationwide Casting Call - a search for women to represent Go Red in 2008-2009 More than 700 survivors, family members, friends and heart health professionals shared their stories and nine were selected to represent the cause. Two of these women will be featured in a Go Red For Women television special with NBC produced by Peacock Productions - "Go Red For Women presents" Untold Stories of the Heart " In addition, Go Red For Women released a ranking of heart friendly cities for women in the United States, commissioning BestPlaces for this study More than 460 local media outlets featured results from Go Red For Women's Heart Friendly Cities study Overall, Go Red For Women has garnered more than 1 5 billion media impressions nationwide, bringing the total to more than 10 billion impressions over five years Diversity The American Heart Association has increased the diversity of its staff and volunteers and continues to achieve diversity goals. The association is increasing public exposure to our programs related to healthcare disparities Two hundred thirty pages of widely used heart disease and stroke information has been translated into Spanish, Vietnamese and Simplified Chinese on the American Heart Association's Web site Power To End Stroke Power To End Stroke (PTES) is an aggressive education and awareness campaign that embraces and celebrates the culture, energy, creativity and lifestyles of African Americans Through this campaign, the Association heightens awareness of the disproportionately high risk of stroke in the African American community The 2007-2008 campaign celebrated a successful year with a Power Awards Weekend in Atlanta, Georgia The weekend consisted of a Power Awards Gala, Ambassador Luncheon, Power Benefit Concert and Power Sunday Church Service More than 350 people participated in the weekend activities. Since its inception, the campaign has been recognized for three marketing/PR Awards (Super Bell Award, PR Platinum Award and PR Week Award) and generated over 3 4 billion media impressions and over 4 million pieces of educational campaign materials have been distributed. Start! is an initiative from the American Heart Association to help create a culture of physical activity in order to help Americans live longer, healthier lives. Start! works in tandem with Corporate America to help prioritize and foster a culture of physical activity and wellness in the workplace Since its launch in January 2007, nearly 700 companies have been recognized as Start! Fit-Friendly Companies, and over 50,000 individuals have registered for MyStart! Online, a free physical activity and nutrition tracking tool. The initiative's signature day, National Start! Walking Day, saw a 30 percent increase in participation in a single year, with thousands of Americans walking at least 30 minutes on a designated day in April to support the cause In addition, the movement has garnered more than 9 billion media impressions association-wide Food Certification Program The heart-check mark has become and remains the strongest, most visible nationwide food labeling program in the U S with over 100 companies and more than 800 products displaying the mark Consumers trust the heart-check mark and use it to easily and reliably select foods that are low in saturated fat and cholesterol During FY 2007-08, the association highlighted the strength of the AHA science backing the heart-check mark with in-store health messaging and made enhancements to the program by adding a criterion for trans fat. The online grocery list builder was also improved to allow consumers to save their online grocery list for future use and download it to their Web-enabled mobile phone or PDA. The Face the Fats program introduced two new characters, The Better Fats Sisters - Mon and Poly - to help consumers learn more about the benefits of monounsaturated and polyunsaturated fats and the foods where they are found. The Sisters help consumers find comprehensive information about fats so that they can eat healthier in restaurants and use the better fats when preparing meals at home. The association and its experts were included in articles and broadcast news clips about dietary fats resulting in 250 million media impressions Consumer Publications In 2007-08, the American Heart Association released the trade paperback version of American Heart Association Low-Salt Cookbook, 3rd edition. We released two magazine cookbooks. Light& Easy Recipes, which features the Go Red For Women campaign and Healthy Soul Food Recipes, which highlights the Power To End Stroke campaign as well as hardcover gift editions of The Best of Healthy Soul Food Recipes and the Go Red for Women 5th Anniversary "Love Your Heart" Cookbook In all, the association offers more than 15 titles available in various formats. Our publications and information about them reached nearly 35 million people during our fiscal year 2007-2008 Stroke The goal of the American Stroke Association is to reduce stroke-related death and risk by 25 percent by 2010 To help improve prevention, diagnosis and treatment efforts, the American Stroke Association helped establish state stroke leadership committees to engage healthcare providers and coordinate a systematic approach to care along the entire stroke health continuum, which includes public awareness of symptoms and primary prevention, EMS transport and pre-hospital care, acute care, secondary prevention and rehabilitation/recovery. The American Stroke Association is identifying high impact strategies to support the continuum of care, and improving these strategies using the process of continuous quality improvement. Each state implements a stroke system plan and successes to share across states It has laid the foundation to accelerate the improvement of stroke prevention, diagnosis and treatment (1 5 Billions of media impressions)

239,879,837

(Grants and allocations \$ 1,308,500)

If this amount includes foreign grants, check here 🕨 🗍 c Diseases, Disorders & Medical Disciplines, General Professional Education, Training and Quality Research

only becomes useful when its results are made available to other scientists and healthcare professionals. With medical advances being reported daily, these professionals need access to what is new in the battle against heart disease and stroke In 2006-2007, the American Heart Association spent \$79.3 million or 11.9 percent of the year's expenses for this purpose Participant fees and corporate sponsorships offset these expenses. The highlight of this effort is the annual Scientific Sessions, the world's largest gathering of scientists, healthcare providers and others concerned about cardiovascular disease. The event, held in November 2007, drew nearly 26,000 people Additional American Heart Association meetings held during 2007-2008 addressed quality of care, arteriosclerosis, stroke, epidemiology and high blood pressure Emergency Cardiovascular Care (ECC) Programs For nearly 25 years, the American Heart Association has been a pioneer in the development of CPR training A global leader in emergency care, the American Heart Association teaches basic and advanced lifesaving skills to the general public and health care providers around the world. During 2007-2008, more than 10 million people in the U.S. were trained in ECC courses. The release of new products in the healthcare and commercial markets widened the reach of our training. In an effort to get more bystanders to take action and perform CPR, Hands-Only CPR was launched This effort encourages people who witness someone suddenly collapse to call 9-1-1 and push hard and fast on the center of the chest until emergency help arrives Get With the Guidelines Launched in 2000, GWTG is a hospital based quality-improvement program designed to ensure that hospitals consistently care for cardiac and stroke patients following the most up-to-date guidelines and recommendations The program provides three modules that address coronary artery disease, heart failure and stroke Currently more than 1,450 hospitals use one or more GWTG modules - coronary artery disease (CAD), heart failure (HF) and stroke, and more than 1 million patient records have been entered since the programs inception Scientific Journals The American Heart Association reports the latest in cardiovascular research through its scientific and medical journals. Until 2007 AHA published five journals. However, in fiscal year 2007/2008 two of the additional six new journals launched and by the end of 2008 the AHA will be publishing 11 scientific journals. The journals have more than 100,000 subscriptions and approximately 4 million monthly online accesses (26000 People attending Scientific Sessions)

(Grants and allocations \$ 0)

79,347,049

d Diseases, Disorders & Medical Disciplines, General Community Programs The American Heart Association provides community services at the local, state and national levels. To support this effort the Association spent \$19 9 million in 2006-2007, which was 3 0 percent of expenses Public Advocacy In 2007-2008, our Advocacy Department's You're the Cure nationwide grassroots network consisted of more than 200,000 volunteers - including doctors, scientists, parents, and heart disease and stroke survivors - actively involved in the organization's public policy agenda These volunteer-advocates challenge their lawmakers to support policies that will advance the fight against heart disease and stroke and improve the health of all Americans About 40,000 new advocates joined the network in FY 2007-08 Nearly 700 You're the Cure advocates from 50 states, Puerto Rico and Washington, D.C. on April 28-29, 2008 participated in the American Heart Association's Congressional Heart and Stroke Lobby Day to ask lawmakers for their support in reducing death and disability from heart disease and stroke In 390 meetings, these advocates urged members of Congress to significantly increase funding for heart disease and stroke research and prevention supported by the National Institutes of Health and Centers for Disease Control and Prevention and to co-sponsor the Fitness Integrated with Teaching (FIT) Kids Act - bipartisan legislation aimed at making physical education a priority in public schools The American Heart Association's advocacy efforts move the association closer to its goal of reducing heart disease, stroke and risk by 25 percent by the year 2010. It includes advocating before local, state and federal legislative and regulatory bodies on public policy issues such as women and cardiovascular disease, stroke, childhood obesity, funding for heart disease and stroke research and prevention, tobacco control and funding for the placement of automated external defibrillators in public places Public Service Announcements The American Heart Association is sponsoring a national public service announcement campaign that focuses on stroke awareness, which was developed and distributed in partnership with the Ad Council The campaign has two major components, one reaching out to the general public and another focused on the African American community Tracking surveys confirmed increases in awareness of stroke warning signs and what to do in the event of stroke among both audiences Surveys also indicated increased levels of public importance placed on

TY 2007 Compensation Explanation

Name: AMERICAN HEART ASSOCIATION INC

EIN: 13-5613797

Software ID: 07000149

Person Name	Explanation
Donna Arnett PhD FAHA	Honorarium for w ork not related to service on Board of Directors
Roberto Bolli MD FAHA	Honorarium for w ork not related to service on Board of Directors
Ralph L Sacco MS MD	Honorarium for w ork not related to service on Board of Directors
M Cass Wheeler	During the fiscal year, Mr Wheeler's base pay was \$589,838 In addition to his base pay, he received a \$113,231 incentive pay award in recognition of meeting performance goals and a \$47,355 lump sum payment for the AHA retirement restoration plan (previously reported as accrued each year in the benefits column of Part V of Form 990). The retirement restoration plan is designed to make whole, upon a specified vesting date, those employees whose compensation is such that the allowable retirement contribution to a 403b plan are capped. In addition, Mr. Wheeler received \$245,000 in July 2007 as the final payment of a retirement make-up agreement with the AHA based on his continued employment with AHA through July 2007. This amount was previously reported on AHA's 2006 Form 990 as a benefit when it was accrued. See Statement 24 for more information.

ldentifier	Return Reference	Explanation
States with which a copy of this return is filed	Form 990, Part VI, Line 90a	Alabama, Alaska, Arizona, Arkansas, California, Connecticut, Florida, Georgia, Illinois, Indiana, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, Tennessee, Utah, Virginia, Washington, West Virginia, Wisconsin

ldentifier	Return Reference	Explanation
Depreciation Methods	Form 990 Part Il Line 42	Donated property and equipment is capitalized and recorded at fair value at date of receipt, and expenditures for land, buildings and equipment are capitalized and recorded at cost. Depreciation of the buildings and equipment is provided on a half-year convention basis over the estimated useful lives of the assets, ranging from 3 to 40 years (leasehold improvements - length of leasehold interest, buildings and improvements - 5 to 40 years, and furniture and equipment - 3 to 7 years). See Statement #7

ldentifier	Return Reference	Explanation
Officer Compensation - from Note 18	Form 990 Part V	AHA has obtained a reasonableness opinion from an independent compensation firm that total remuneration provided to the CEO falls within a reasonable range of competitive practices for positions among like organizations providing like services, and is therefore reasonable. Also, Mr. Wheeler has a severance agreement with the AHA, which provides for a maximum payment of 50% of his base pay, if certain conditions are met.

TY 2007 Non Electing Public Charities Statement

Name: AMERICAN HEART ASSOCIATION INC

EIN: 13-5613797

Software ID: 07000149

Software Version: v1.00

Statement: In support of its mission to build healthier lives, free of

cardiovascular diseases and stroke, the American Heart Association plans, coordinates and implements a public advocacy program. American Heart Association's lobbying expenditures constitute 0.654% of its total expenses. At the national level, this program includes maintaining and expanding contacts with Members of Congress. Similar relationships are built by the regional affiliates, advocating at the state and local levels. To guide its federal, state and local efforts, the Association implements a public policy agenda by maintaining active partnership in healthrelated coalitions with other like-minded groups; media advocacy, including letters to the editor, op-ed pieces, advertorials and news conferences; monitoring and commenting on regulatory proposals; submitting testimony and statements for the record in response to proposed policy initiatives; maintaining an active volunteer grassroots network available to write, call and/or visit local, state and federal policymakers; and lobbying of local, state and federal legislative bodies. The Association encourages Congress and state legislatures to join the fight against heart disease and stroke, the number one and number three biggest killers of Americans, respectively. The Association's public policies fall into nine distinct categories: Heart Disease and Stroke Research - A top priority of the Association is to ensure that the Federal Government continues on the path of significantly increasing funding for the National Institutes of Health, including significant increases for heart and stroke research. Health Promotion and Disease Prevention - Research has clearly illustrated that tobacco use, lack of physical activity, obesity and poor nutrition are major risk factors for heart disease, stroke and other cardiovascular diseases. Research also demonstrates that much of the disease resulting from these behaviors can be prevented. The Association advocates at the state and federal level for public policies aimed at addressing the risk factors related to heart disease and stroke. Health Disparities - The Association works to reduce healthcare disparities in heart disease, stroke and associated risk. Activities are aimed at increasing awareness, promoting research, and improving quality and access to care to reduce disparities among women and minority populations. Obesity Prevention - Obesity is a major modifiable risk factor for cardiovascular diseases. State and federal advocacy efforts focus on promoting quality physical and health education, increased physical activity opportunities, strong nutrition policies and research to effectively treat and prevent obesity, especially in children. Tobacco Control - The Association works to reduce tobacco use - particularly among children and youth - and reduce exposure to secondhand smoke in order to lower the incidence of cardiovascular diseases. The Association supports efforts to fund educational programs, to establish smokefree public places, and to regulate the manufacture, sale, distribution, labeling and promotion of tobacco products. Quality and Availability of Care - The Association supports public policies at the state and federal level that ensure all Americans have access to and coverage for quality health care, access to appropriate emergency cardiovascular and stroke care, and access to appropriate cardiovascular and stroke drugs, treatments and devices. Stroke - Access to quality stroke care, including prevention, treatment and rehabilitation services, is a priority of the American Heart Association and its division the American Stroke Association. Advocacy activities are aimed at promoting the development and implementation of the essential elements of stroke systems of care. Chain of Survival - A strong emergency response system is a critical factor in saving the lives of victims of heart attack, cardiac arrest and stroke. Advocacy efforts are aimed at promoting all components of the Chain of Survival, including funding for the purchase of automated external defibrillators (AEDs). Charitable organizations - The Association supports policies that encourage more Americans to make charitable contributions to the non-profit sector. In addition, the Association supports policies that preserve and enhance our ability to advocate the views of our volunteers before Congress, State Legislatures, and state and federal regulatory agencies.

TY 2007 Scholarship Award Statement

Name: AMERICAN HEART ASSOCIATION INC

EIN: 13-5613797 **Software ID:** 07000149 **Software Version:** v1.00

Statement: Institutional Eligibility for Awards and Location of Work for Applicants/Awardees. American Heart Association research awards must be limited to non-profit institutions. Such institutions include: medical, osteopathic and dental schools, veterinary schools, schools of public health, pharmacy schools, nursing schools, universities and colleges, public and voluntary hospitals and other non-profit institutions that can demonstrate the ability to conduct the proposed research. Applications will not be accepted for work with funding to be administered through any federal institution or work to be performed by a federal employee with the exception of Veterans Administration employees. The research committee should scrutinize the available resources as they relate to local, state or national needs. (Standards and Guidelines, Appendix G, page 46)***Individual Eligibility for Awards*** The principal investigator must hold a doctoral or appropriate advanced degree at the time the award is activated for fellowships and, for grants, at the time of application. Exceptions must be documented in writing by the research committee of reference and approved by the AHA Research Committee. (Standards and Guidelines, Appendix G, page 10). The basic requirements of eligibility for all American Heart Association research programs, National Center or Affiliate are given below. *** PREDOCTORAL FELLOWSHIPS*** Post baccalaureate, predoctoral students seeking a Ph.D., M.D., D.O., or equivalent degree who seek research training and experience under the supervision of a sponsor/mentor prior to embarking on a postgraduate research career. This award is not intended for individuals who have already attained a doctoral degree, unless the individual is pursuing a second doctoral degree (example: M.D. who is seeking a Ph.D.). (Standards and Guidelines, Appendix G, page 11). ***POSTDOCTORAL FELLOWSHIPS*** Individuals who have obtained a Ph.D., M.D., D.O. or equivalent degree by the time of award activation and who seek additional research training under the supervision of a sponsor/preceptor/mentor prior to embarking on a career of independent research. This award is not intended for individuals of faculty rank. Exception: MD's or MD/PhD's with clinical responsibilities who need instructor or similar title to see patients, but who devote at least 80% full-time to research training. (Standards and Guidelines, Appendix G, page 14). ***CLINICAL RESEARCH PROGRAM*** Health care professionals with a Masters, M.D., D.O. or Ph.D. degree. Individuals who have held NIH RO1 grants or American Heart Association grant-in-aid awards (or equivalent awards) are not eligible to be the principal investigator. (Standards and Guidelines, Appendix G, page 17) BEGINNING GRANT-IN-AID Faculty/staff members initiating independent research careers. At application, applicants must hold an M.D., Ph.D., D.O. or equivalent doctoral degree and must meet institutional requirements for grant submission. At activation, applicants must hold a faculty/staff rank up to and including Assistant Professor (or equivalent). (Standards and Guidelines, Appendix G, page 19) SCIENTIST DEVELOPMENT GRANT Individuals initiating independent research careers. At application, applicants must hold an M.D., Ph.D., D.O. or equivalent doctoral degree and must meet institutional requirements for grant submission. At activation, applicant must hold a faculty/staff position. Applicant's faculty rank shall be up to and including Assistant Professor (or equivalent) at application. Applications may be submitted in the final year of a postdoct research fellowship or in the initial years of the independent research career. At time of award activation, no more than four years will have elapsed since applicant's first full-time faculty/staff appointment at the level of assistant professor or its equivalent. A pivotal requirement is the demonstration that the award will promote independent status for the applicant. Applicant shall have received no prior national-level grant as of time of Scientist Development Grant activation. (Standards and Guidelines, Appendix G, page 21-22) ESTABLISHED INVESTIGATOR AWARD At time of application, faculty/staff members at the mid-level stages of their independent research careers. At application, applicants must hold an M.D., Ph.D., D.O. or equivalent doctoral degree and must meet institutional requirements for grant submission. At the time of award activation, the investigator must be at least four (4) years but no more than nine (9) years (i.e., eight years and 12 months since the first faculty/staff appointment at the level of assistant professor or equivalent (including, but not limited to, research assistant professor, research scientist, staff scientist, etc.) Instructor positions (or equivalent positions) do not count toward the four or nine years of eligibility. Applicants must have current national-level funding as principal investigator on an R01 grant or its equivalent (e.g. VA Merit Award, NSF Grant, or PI on Program Project Grant from NIH). NIH "K" series awards are not considered equivalent to an R01. (Standards and Guidelines, Appendix G, page 24) GRANT-IN-AID Faculty/staff members conducting independent research at time of application. At application, principal investigator must hold an M.D., Ph.D., D.O. or equivalent doctoral degree and must meet institutional requirements for grant submission. (Standards and Guidelines, Appendix G, page 26) SPECIAL AWARDS/PILOT PROGRAMS Eligibility is determined by an Affiliate or the National Center based upon special local or national circumstances. The funding component must request and receive approval from the AHA Research Committee to develop and implement a pilot research program for a limited period of time (Standards and Guidelines, Appendix G, page 39). NATIONAL FELLOW-TO-FACULTY TRANSITION AWARD * Physicians who hold an M.D., M.D./PhD., D.O. or equivalent doctoral degree at the time of application submission and who seek additional research training under the supervision of a sponsor/mentor prior to embarking on a career of independent research. * Applicants must be enrolled in or have completed an Accreditation Council for Graduate Medical Education (ACGME)-approved residency or a clinical fellowship program associated with an ACGME-approved residency. * Applicants must have completed the clinical portion of their training program by the time of award activation. It is the responsibility of the applicant to identify and work with a sponsor/mentor to develop the application. * Candidates may have had no more than five (5) years of postdoctoral research training (beyond clinical training) at time of application. * The award is not intended for individuals of faculty/staff rank. * At the time of award activation, applicant may not hold a faculty/staff appointment. The exceptions are MD's or MD/PhD's with clinical responsibilities who hold a title of instructor or similar due to their patient care responsibilities but who devote at least 80% full time effort to research training. The mentor may hold an M.D., PhD., D.O. or other equivalent degree. Because of the strong mentoring component of this award and the importance of developing a meaningful relationship between awardee and mentor, an individual mentor may sponsor only one applicant to the program per year. Another Major Eligibility Requirement for Individuals is Citizenship Awards are made to principal investigators and trainees who are: (a) United States citizens or (b) foreign nationals holding permanent residence or certain other visa statuses or (c) foreign nationals who have applied for permanent residency (formI485 on file with U.S. Citizenship and Immigration Services) and who have received authorization to legally remain in the U.S. (having filed an Application for Employment from I-765). Awardee must meet American Heart Association citizenship criteria throughout the durations of the award. Foreign nationals holding permanent

residence or other appropriate visa statuses must submit

other sources.

documentation as required by the funding component. (Standards and Guidelines, Appendix G, page 45) The National Center and each Affiliate Research Committee have the authority to add more restrictive eligibility criteria to a research award program. For example, a limitation may be placed on annual funding dollars from

12/2007 – The Delegate Assembly approved the following amendments to the AHA Bylaws:

- Amendment to transfer authority to elect the AHA Board from the Delegate Assembly to the Nominating Committee. [AHA BYLAWS Art. III.1; Art. IV.2(a) & 3; Art. V.4; Art. VI. 1(a) & (c)(5).]
- Amendment to transfer authority to amend designated sections of the Bylaws from the Delegate Assembly to the Board, with the exception of designated Bylaws provisions including those relating to Affiliates and Divisibility which will be retained by the Delegate Assembly.

[AHA BYLAWS Art. III.1; Art. IV.1; Art. IX.]

3. Amendment to treat Interdisciplinary Working Groups the same as the Councils for purposes of having delegates at the Delegate Assembly.

[AHA BYLAWS Art.III.2 & 3.]
