| Identifier | Return Reference | Explanation |
|------------|---|--|
| Part X | Description of Uncertain Tax Positions Under FIN 48 | The center adopted accounting guidance related to the accounting for uncertainty in income taxes on July 1, 2009. The center files a Form 990 (return of organization exempt from income taxes) when the return is filed, it is highly certain that some positions taken would be sustained upon examination by the taxing authorities, while others are subject to uncertainty about the merits of the position taken or the amount of the position that would ultimately be sustained. Examples of tax positions common to health centers include such matters as the following: tax-exempt status of the entity, the continued tax-exempt status of bonds issued by the organization, the nature, characterization and taxability of joint venture income and various positions relative to potential sources of unrelated business taxable income ("UBIT"). UBIT is reported on Internal Revenue Service Form 990-T, as appropriate. The benefit of a tax position is recognized in the financial statements in the period during which, based on available evidence, management believes it is more likely than not the tax position will be sustained upon examination, including the resolution of appeals or litigation process, if any. Tax positions are not offset or aggregated with other positions. Tax positions that meet the more-likely-than-not recognition threshold are measured as the largest amount of tax benefit that is more than 50% likely to be realized on settlement with the applicable taxing authority. The portion of the benefits associated with the tax positions taken that exceeds the amount measured as described above is reflected as a liability for unrecognized tax benefits in the balance sheets along with any associated interest and penalties that would be payable to the taxing authorities upon examination. At June 30, 2010, there were no unrecognized tax benefits identified or recorded as liabilities. |
