Are any joint costs from a combined educational campaign and fundraising solicitation reported in **(B)** Program services?

Ves No If "Yes," enter **(i)** the aggregate amount of these joint costs \$\frac{134,379,447}{454,101}}, (ii) the amount allocated to Program services \$\frac{87,454,101}{454,101}}, (iii) the amount allocated to Management and general \$5,504,024}, and **(iv)** the amount allocated to Fundraising \$41,421,322

Part III Statement of Program Service Accomplishments (See the instructions.)

Form 990 is available for public inspection and, for some people, serves as the primary or sole source of information about a particular organization. How the public perceives an organization in such cases may be determined by the information presented on its return Therefore, please make sure the return is complete and accurate and fully describes, in Part III, the organization's programs and accomplishments

What is the organization's primary exempt purpose? F Build healthier lives free of cardiovascular diseases and stroke All organizations must describe their exempt purpose achievements in a clear and concise manner State the number of clients served,

charitable trusts must also enter the amount of grants and allocations to others)

publications issued, etc Discuss achievements that are not measurable (Section 501(c)(3) and (4) organizations and 4947(a)(1) nonexempt

Program Service Expenses

(Required for 501(c)(3) and (4) orgs , and 4947(a)(1) trusts, but optional for others)

Professional Education Professional Education, Training and Quality Research only becomes useful when its results are made available to other scientists and healthcare professionals. With medical advances being reported daily, these professionals need access to what is new in the battle against heart disease and stroke. In 2006-2007, the American Heart Association spent \$76.9 million or 12.7 percent of the year's expenses for this purpose Participant fees and corporate sponsorships offset these expenses. The highlight of this effort is the annual Scientific Sessions, the world's largest gathering of scientists, healthcare providers and others concerned about cardiovascular disease. The event, held in November 2006, drew nearly 27,000 people Additional American Heart Association meetings held during 2006-2007 addressed quality of care, arteriosclerosis, stroke, epidemiology and high blood pressure Emergency Cardiovascular Care (ECC) Programs For nearly 25 years, the American Heart Association is a pioneer in the development of CPR training and a global leader in developing training materials used to teach basic and advanced life support techniques to lay rescuers and health care providers throughout the world During 2006-2007, ECC programs were used to train more than 10 7 million people in the U S. Get With the Guidelines. Launched in 2000, Get With The Guidelines (GWTG) is designed to help hospitals treat patients with evidenced-based medicine known to improve health outcomes. More than 1,400 hospitals across the country now participate in at least one of the program's three modules - coronary artery disease (CAD), heart failure (HF) and stroke Scientific Journals The American Heart Association reports the latest in cardiovascular research through its scientific and medical journals Five journals were published in 2006-2007, with more than 90,000 subscriptions and approximately 4 million monthly online accesses (10 million participants)

76,933,432

(Grants and allocations \$ 0) If this amount includes foreign grants, check here 🕨 🦵 **b** Community Medicine Programs Community Programs The American Heart Association provides community services at the local, state and national levels. To support this effort the Association spent \$43.9 million in 2006-2007, which was 7 2 percent of expenses Public Advocacy In 2006-2007, our Advocacy Department's You're the Cure nationwide grassroots network consisted of more than 200,000 volunteers - including doctors, scientists, parents, and heart disease and stroke survivors - actively involved in the organization's public policy agenda These volunteer-advocates challenge their lawmakers to support policies that will advance the fight against heart disease and stroke and improve the health of all Americans About 26,600 new advocates joined the network in FY 2006-07 Nearly 600 You're the Cure advocates from 49 states, Puerto Rico and Washington, D C on April 23-24, 2007 participated in the American Heart Association's Congressional Heart and Stroke Lobby Day to ask lawmakers for their support in reducing death and disability from heart disease and stroke In 380 meetings, these advocates urged members of Congress to significantly increase funding for heart disease and stroke research and prevention supported by the National Institutes of Health and Centers for Disease Control and Prevention and to co-sponsor the HEART for Women Act - bipartisan legislation aimed at improving the prevention, diagnosis, and treatment of cardiovascular disease in women. The American Heart Association's advocacy efforts move the association closer to its goal of reducing heart disease, stroke and risk by 25 percent by the year 2010 It includes advocating before local, state and federal legislative and regulatory bodies on public policy issues such as women and cardiovascular disease, stroke, childhood obesity, funding for heart disease and stroke research and prevention, tobacco control and funding for the placement of automated external defibrillators in public places Paid Advertising From July 2006 to January 2007, the American Heart Association continued its national paid advertising campaign to increase awareness of the American Heart Association and bring more Americans to our Web site and toll-free telephone number to take the Learn and Live Quiz The quiz provides potentially life saving information about the prevention and treatment of cardiovascular disease and stroke In February 2007, the campaign re-launched with a new focus on three important health messaging platforms, women and heart disease and physical activity. Ads were featured in popular national magazines and on national television across the country Public Service Announcements The American Heart Association is sponsoring two national public service announcement campaigns developed and distributed in partnership with the Ad Council One focuses on stroke awareness. The other focuses on healthy lifestyles and is co-sponsored by the American Cancer Society, American Diabetes Association and American Heart Association Tracking surveys confirmed increases in awareness of stroke warning signs and what to do in the event of stroke Surveys also indicated increased levels of public importance placed on the stroke and healthy lifestyles The healthy lifestyles campaign continues to surpass goals related to number of times it is placed by the media (200 thousand volunteers)

(Grants and allocations \$ 0)

If this amount includes foreign grants, check here 🕨 🦵 c Diseases, Disorders & Medical Disciplines, General Research Support The American Heart Association funds 43,881,516

research at both the national and affiliate (regional) levels. Since the Association became a voluntary health organization in 1948, we have spent more than \$2 8 billion dollars for projects that explore the prevention, detection and treatment of heart disease and stroke Grants support projects, fellowships and investigatorships for research training or career development for a specific period of time. During the past year, the Association funded 1,130 new awards, including 562 grants and 568 fellowships. The American Heart Association invested \$140 6 million in 2006-2007 to fund cardiovascular research. That was 23 2 percent of the Association's expenses for the fiscal year. The American Heart Association's research commitment over the past half century has helped lead to developments such as pacemakers, open-heart surgery, heart transplantation, clot-busting drugs and both automated external defibrillators and implantable defibrillators that can stop potentially fatal heart rhythm problems. Now scientists and professionals are gaining new insights into the workings of the cardiovascular system, including its genetic and cellular foundations, which will provide more answers on how to prevent and/or treat heart disease and stroke (1130 new research awards)

(Grants and allocations \$ 141,145,161)

If this amount includes foreign grants, check here 🕨 🔽 d Public Health Programs Public Health Education Informing all Americans about ways to reduce their risk of 146.317.289

heart disease and stroke is another major objective of the American Heart Association. To do that, the Association spent \$201 5 million, or 33 3 percent of all 2006-2007 expenses Alliance for a Healthier Generation This year, the American Heart Association continued its relationship with the Clinton Foundation to reduce childhood obesity. Working on a variety of children's health and obesity concerns, the association is encouraging healthier foods and increased physical activity in schools and encouraging kids to take charge of their health. Through its Healthy Schools Program, the Alliance worked with representatives of the beverage industry, including the American Beverage Association, to implement new guidelines to reduce the number of calories available to children at school. Under these guidelines, only lower calorie and nutritious beverages will be sold to schools The guidelines will impact approximately 35 million students annually. In addition to implementing its partnership with Nickelodeon, the Alliance also created new partnerships with the National Basketball Association, the Channel One Network and Rachael Ray Go Red For Women During its fourth year, Go Red for Women kept the spotlight on heart disease as women's No 1 killer More than 447,000 women learned their risk for cardiovascular disease by taking the GRFW Heart CheckUp More than 220 Go Red For Women luncheons were held across the United States and 10,500 companies participated in National Wear Red Day New scientific quidelines for women were published in February 2006, American Heart Month A national advertising campaign featuring GRFW launched in USA Today, and the program generated more than two billion media impressions, bringing the total number to more than six billion impressions since the movement began The American Heart Association has increased the diversity of its staff and volunteers and continues to achieve diversity goals. The association is increasing public exposure to our programs related to healthcare disparities Resources were allocated to significantly increase the amount of Spanish-language content available on the association Web site Power To End Stroke Power To End Stroke (PTES) is an aggressive education and awareness campaign that embraces and celebrates the culture, energy, creativity and lifestyles of African Americans Through this campaign, the Association heightens awareness of the disproportionately high risk of stroke in the African American community In 2006-2007 the campaign celebrated a successful year with a Power Awards Weekend in Atlanta, Georgia The weekend consisted of an Ambassador Luncheon, Power Awards Gala and Power Sunday church service Over 350 people participated in the weekend activities. The campaign has generated over 954 million media impressions and over 3 3 million pieces of educational campaign materials have been distributed. Start! is a new movement from the American Heart Association to help create a culture of physical activity in order to help Americans live longer, healthier lives. Start1 works in tandem with the American workforce to help prioritize and foster a culture of physical activity and nutrition. Since its launch in January 2007, nearly 500 companies have applied to be recognized as Start! Fit-Friendly Companies, and over 30,000 individuals have registered for Start! Online In addition, the movement has garnered over 4 5 billion media impressions association wide Food Certification Program The heart-check mark has become and remains the strongest, most visible nationwide food labeling program in the U S with 97 companies and almost 800 products displaying the mark Consumers trust the heart-check mark and use it to easily and reliably select foods that are low in saturated fat and cholesterol. During FY 2006-07, the association highlighted the strength of the AHA science backing the heart-check mark with in-store health messaging and made enhancements to the program's quality assurance measures. Face the Fats was launched this year, a comprehensive consumer education campaign to help Americans understand dietary fats and their relationship to cardiovascular disease. The association and its experts were included in articles about trans fats resulting in 500 million media impressions. Consumer Publications. In 2006-07, the American Heart Association released the trade paperback version of American Heart Association No Fad Diet A Personal Plan for Healthy Weight Loss and The New American Heart Association Cookbook, 7th Edition We released two magazine cookbooks Love Your Heart, which features the Go Red For Women campaign and Healthy Soul Food Recipes, which highlights the Power To End Stroke campaign. In all, the association offers over 15 titles available in various formats. Our publications and information about them reached nearly 98 million people during our fiscal year 2006-2007 Stroke The American Stroke Association is finishing its tenth year within the American Heart Association The goal of the American Stroke Association is to reduce stroke-related death and risk by 25 percent by 2010 To help improve prevention and treatment efforts, the American Stroke Association helped establish state stroke leadership committees to engage healthcare providers and coordinate a systematic approach to care along the entire stroke health continuum, from primary prevention through rehabilitation. The American Stroke Association is identifying high impact strategies and successes to share across states. It has laid the foundation to accelerate the improvement of stroke prevention, diagnosis and treatment. Customer Service Call centers are the critical link between a company and its customers, therefore the association strives to anticipate, understand, meet and exceed our customers' needs and expectations. In 2006-2007, the National Service Center received a total of 449,058 incoming calls for the year, a 9 percent increase from last fiscal year Specialists answered more than 365,216 toll-free telephone calls, 174,429 business reply cards, e-mails and letters Communications The American Heart Association worked with national and local news media outlets to present the latest news on cardiovascular disease and stroke to the public Each media impression represents one person who read, viewed or heard a media report including information from the American Heart Association or American Stroke Association More than 8 84 billion national and local media impressions were generated during 2006-2007. These impressions include coverage of cause initiatives,

scientific journal articles, health communications, stroke, health disparities/cultural health and media advocacy

(Grants and allocations \$ 0)

(8 billion media impressions)

TY 2006 Compensation Explanation

Name: AMERICAN HEART ASSOCIATION INC

EIN: 13-5613797

Software ID: 06000173

Person Name	Explanation
David M Livingston	During the fiscal year, Mr Livingston's base pay was \$247,869 In addition, he received an incentive award of \$12,128 in recognition of meeting performance goals
Walter D Bristol	During the fiscal year, Mr Bristol's base pay was \$193,942 In addition, he received an incentive award of \$19,000 in recognition of meeting performance goals. Additionally, he received \$6,599 in a lump sum payment for the AHA retirement restoration plan, which has previously been reported as accrued each year in the benefits column of Part V of Form 990. The plan is designed to make whole, upon a specified vesting date, those employees whose compensation is such that the allowable retirement contributions to a 403b plan are capped.
M Cass Wheeler	During the fiscal year, Mr. Wheeler's base pay was \$536,904. In addition to his base pay, he received a \$35,003 incentive pay award in recognition of meeting performance goals, a \$100,000 lump sum supplemental retirement makeup payment approved by the Board of Directors, a \$46,340 lump sum payment for the AHA retirement restoration plan (previously reported as accrued each year in the benefits column of Part V of Form 990). The retirement restoration plan is designed to make whole, upon a specified vesting date those employees who compensation is such that the allowable retirement contributions to a 403b plan are capped. AHA has obtained a reasonableness opinion from an independent compensation firm that total remuneration provided to the CEO falls within a reasonable range of competitive practices for positions among like organizations providing like services, and is therefore reasonable. Also, see Stmt #22
Sunder D Joshi	During the fiscal year, Mr Joshi's base pay was \$231,820
Nancy A Brown	During the fiscal year, Ms Brown's base pay was \$372,600 In addition, she received an incentive award of \$24,066 in recognition of meeting performance goals
Gordon L McCullough	During the fiscal year, Mr McCullough's base pay was \$335,860 In addition, he received an incentive award of \$10,000 in recognition of meeting performance goals
Rose Marie Robertson	During the fiscal year, Ms Robertson's base pay was \$367,662

TY 2006 General Explanation Attachment

Name: AMERICAN HEART ASSOCIATION INC

EIN: 13-5613797

Software ID: 06000173

ldentifier	Return Reference	Explanation
Officer Compensation	Form 990 Part V	In addition to the compensation disclosed in Stmt #19, Mr. Wheeler has a retirement make-up agreement with the AHA that provides for a final payment of \$245,000 in July 2007 based on his continued employment with AHA through July 2007. Also, Mr. Wheeler has a severance agreement with the AHA, which provides for a maximum payment of 50% of his base pay, if certain conditions are met.

ldentifier	Return Reference	Explanation
States with which a copy of this return is filed	Form 990, Part VI, Line 90a	AL,AK,AZ,AR,CA,CT,DC,FL,GA,IL,IN,KS,KY,LA,ME,MD,MA,MI,MN,MS,NH,NJ,NM,NY,NC,ND,OH,OK,OR,PA,RI,SC,TN,UT,VA,WA,WV,WI

ldentifier	Return Reference	Explanation
Depreciation Methods	Form 990, Part II, Line 42	Donated property and equipment is recorded at fair value at date of receipt, and expenditures for land, buildings, and equipment are capitalized and stated at cost. Depreciation of the buildings and equipment is provided on a half-year convention basis over estimated useful lives of the assets, ranging from 3 to 40 years (leasehold improvements - length of the leasehold interest, building and improvements - 5 to 40 years, and furniture and equipment - 3 to 7 years). See Statement #7

Software ID: 06000173

Software Version: v1.00

Statement: In support of its mission to build healthier lives, free of

cardiovascular diseases and stroke, the American Heart Association plans, coordinates and implements a public advocacy program. This program represents less than 0.73% of the organization's total functionalized expenses. At the national level, this program includes maintaining and expanding contacts with Members of Congress. Similar relationships are built by the regional affiliates, advocating at the state and local levels. To guide its federal, state and local efforts, the Association implements a public policy agenda by maintaining active partnership in healthrelated coalitions with other like-minded groups; media advocacy, including letters to the editor, op-ed pieces, advertorials and news conferences; monitoring and commenting on regulatory proposals; submitting testimony and statements for the record in response to proposed policy initiatives; maintaining an active volunteer grassroots network available to write, call and/or visit local, state and federal policymakers; and lobbying of local, state and federal legislative bodies. The Association encourages Congress and state legislatures to join the fight against heart disease and stroke, the number one and number three biggest killers of Americans, respectively. The Association's public policies fall into four distinct categories: Research - A top priority of the Association is to ensure that the Federal Government continues on the path of significantly increasing funding for the National Institutes of Health, including significant increases for heart and stroke research. Health Promotion and Disease Prevention - Research has clearly illustrated that tobacco use, lack of physical activity, obesity and poor nutrition are major risk factors for heart disease, stroke and other cardiovascular diseases. Research also demonstrates that much of the disease resulting from these behaviors can be prevented. The Association advocates at the state and federal level for public policies aimed at addressing the risk factors related to heart disease and stroke. Quality and Availability of Care - The Association supports public policies at the state and federal level that ensure all Americans have access to and coverage for quality health care, access to appropriate emergency cardiovascular and stroke care, and access to appropriate cardiovascular and stroke drugs, treatments and devices. Charitable organizations - The Association supports policies that encourage more Americans to make charitable contributions to the non-profit sector. In addition, the Association supports policies that preserve and enhance our ability to advocate the views of our volunteers before Congress, State Legislatures, and state and federal regulatory agencies. In addition, advocacy goals arise from the Association's four-year Strategic Plan and Health Impact goal to reduce coronary heart disease, stroke and risk 25 percent by 2010.

TY 2006 Scholarship Award Statement

Name: AMERICAN HEART ASSOCIATION INC

EIN: 13-5613797 **Software ID:** 06000173

Software Version: v1.00 Statement: Institutional Eligibility for Awards and Location of Work for Applicants/Awardees American Heart Association research awards must be limited to non-profit institutions. Such institutions include: medical, osteopathic and dental schools, veterinary schools, schools of public health, pharmacy schools, nursing schools, universities and colleges, public and voluntary hospitals and other non-profit institutions that can demonstrate the ability to conduct the proposed research. Applications will not be accepted for work with funding to be administered through any federal institution or work to be performed by a federal employee with the exception of Veterans Administration employees. The research committee should scrutinize the available resources as they relate to local, state or national needs (Standards and Guidelines, Appendix G, page 42). Individual Eligibility for Awards The principal investigator must hold a doctoral or appropriate advanced degree at the time the award is activated for fellowships and, for grants, at the time of application. Exceptions must be documented in writing by the research committee of reference and approved by the AHA Research Committee (Standards and Guidelines, Appendix G, page 9). The basic requirements of eligibility for all American Heart Association research programs, National Center or Affiliate are given below. PREDOCTORAL FELLOWSHIPS Post baccalaureate, predoctoral students seeking a PhD, MD, DO or equivalent degree who seek research training and experience under the supervision of a sponsor/mentor prior to embarking on a postgraduate research career (Standards and Guidelines, Appendix G, page 10). POSTDOCTORAL FELLOWSHIPS Individuals who have obtained a PhD, MD, DO or equivalent degree by the time of award activation and who seek additional research training under the supervision of a sponsor/preceptor/mentor prior to embarking on a career of independent research. This award is not intended for individuals of faculty rank (Standards and Guidelines, Appendix G, page 13). BEGINNING GRANT-IN-AID Faculty/staff members initiating independent research careers. At application, applicants must hold an MD, PhD, DO or equivalent doctoral degree and must meet institutional requirements for grant submission. At activation, applicants must hold a faculty/staff rank up to and including Assistant Professor (or equivalent) (Standards and Guidelines, Appendix G, page 18). SCIENTIST DEVELOPMENT GRANT Individuals initiating independent research careers. At application, applicants must hold an MD, PhD, DO or equivalent doctoral degree and must meet institutional requirements for grant submission. At activation, applicant must hold a faculty/staff position. Applicant's faculty rank shall be up to and including Assistant Professor (or equivalent) at application. Applications may be submitted in the final year of a postdoctoral research fellowship or in the initial years of the independent research career. At time of award activation, no more than four years will have elapsed since applicant's first full-time faculty/staff appointment at the level of Assistant Professor or its equivalent (Standards and Guidelines, Appendix G, page 20). ESTABLISHED INVESTIGATOR AWARD At time of application, faculty/staff members at the mid-level stages of their independent research careers. At application, applicants must hold an M.D., Ph.D., D.O. or equivalent doctoral degree and must meet institutional requirements for grant submission. At the time of award activation, the investigator must be at least four (4) years but no more than nine (9) years (i.e., eight years and 12 months) since the first faculty/staff appointment at the level of assistant professor or equivalent (including, but not limited to, research assistant professor, research scientist, staff scientist, etc.) Instructor positions (or equivalent positions) do not count toward the four or nine years of eligibility. Applicants must have current national-level funding as principal investigator on an R01 grant or its equivalent (e.g. VA Merit Award, NSF Grant, or PI on Program Project Grant from NIH). NIH "K" series awards are not considered equivalent to an R01 (Standards and Guidelines, Appendix G, page 22). GRANT-IN-AID Faculty/staff members pursuing independent research at the time of application. At application, principal investigator must hold a PhD, MD, DO or equivalent doctoral degree and must meet institutional requirements for grant submission (Standards and Guidelines, Appendix G, page 25). SPECIAL AWARDS/PILOT PROGRAMS Eligibility is determined by an Affiliate or the National Center based upon special local or national circumstances. The funding component must request and receive approval from the AHA Research Committee to develop and implement a pilot research program for a limited period of time (Standards and Guidelines, Appendix G, page 106). Another Major Eligibility Requirement for Individuals is Citizenship Awards are made to principal investigators and trainees who are: (a) United States citizens, (b) foreign nationals holding permanent residence or certain other visa statuses, or (c) foreign nationals who have applied for permanent residency (form I-485 on file with U.S. Citizenship and Immigration Services) and who have received authorization to legally remain in the U.S. (having filed an Application for Employment form I-765). The awardee must meet American Heart Association citizenship criteria throughout the duration of the award. Foreign nationals holding permanent residence or other appropriate visa statuses must submit documentation as required by the funding component (Standards and Guidelines, Appendix G, page 112). The National Center and each Affiliate Research Committee have the authority to add more restrictive eligibility criteria to a research award program. For example, a limitation may be placed on annual funding dollars from other sources. NATIONAL FELLOW-TO-FACULTY TRANSITION AWARD * Physicians who hold an M.D., M.D./PhD., D.O. or equivalent doctoral degree at the time of application submission and who seek additional research training under the supervision of a sponsor/mentor prior to embarking on a career of independent research. * Applicants must be enrolled in or have completed an Accreditation Council for Graduate Medical Education (ACGME)-approved residency or a clinical fellowship program associated with an ACGME-approved residency. * Applicants must have completed the clinical portion of their training program by the time of award activation. It is the responsibility of the applicant to identify and work with a sponsor/mentor to develop the application. * Candidates may have had no more than five (5) years of postdoctoral research training (beyond clinical training) at time of application. * The award is not intended for individuals of faculty/staff rank. * At the time of award activation, applicant may not hold a faculty/staff appointment. The exceptions are MD's or MD/PhD's with clinical responsibilities who hold a title of instructor or similar due to their patient care responsibilities but who devote at least 80% full time effort to research training. The mentor may hold an M.D., PhD.,

> D.O. or other equivalent degree. Because of the strong mentoring component of this award and the importance of developing a

meaningful relationship between awardee and mentor, an individual mentor may sponsor only one applicant to the program per year.
